

DENARIUS

Advancing the Lomero-Poyatos Project in Southern Spain

TSXV: DSLV
OTCQB: DNRSF

Corporate Presentation | June 2022

Cautionary Notes

Forward-looking Statements and Cautionary Notes

Legal Disclaimer

This presentation is provided solely for informational purposes and is not, and under no circumstances is to be construed as, a prospectus, or advertisement or a public offering of securities, and does not constitute an offer to buy, sell, issue or subscribe for, or the solicitation of an offer to buy, sell, issue or subscribe for any securities in any jurisdiction in which such offer, solicitation or sale would be unlawful. The information contained in this presentation: (a) is confidential and is being provided to you solely for your information and may not be reproduced, in whole or in part, in any form or forwarded or further distributed to any person other than your professional advisors in order to assist you with an evaluation of the Company, (b) is provided as at the date hereof and is subject to change without notice, (c) does not purport to contain all the information that may be necessary or desirable to fully and accurately evaluate the Company (including any investment in securities of the Company), and (d) is not to be considered as a recommendation by the Company that any person make an investment in the Company. This presentation should not be construed as legal, financial or tax advice to any individual, as each individual's circumstances are different. Readers should consult with their own professional advisors regarding their particular circumstances, and under no circumstances should readers base any decision on whether to invest in the Company solely upon the material provided herein.

There are no representations or warranties made herein by the Company (including, for greater certainty, ESV Resources Corp., the Guia Antigua Vendor, Gran Colombia Titiribi or Viaggio) or any of their representatives, agents or advisors, of any proposed offering of any securities of the Company and investors will only be able to rely on the representations and warranties contained in the applicable subscription agreement entered into by such investors at the time of purchase and sale of any such securities. Neither the delivery of this presentation nor any sale of securities by the Company shall under any circumstances imply that the information set forth herein is correct as of any date subsequent to the date hereof. Neither the Company (including, for greater certainty, ESV Resources Corp., the Guia Antigua Vendor, Gran Colombia Titiribi or Viaggio) nor any of its advisors, agents or representatives shall bear any liability (in negligence or otherwise) for any loss arising from any use of these presentation materials or their contents or otherwise arising in connection with these materials. **By reviewing this presentation, you acknowledge and agree (i) to maintain the confidentiality of this presentation and the information contained herein, (ii) to protect such information in the same manner you protect your own confidential information, which shall be at least a reasonable standard of care, and (iii) to not utilize any of the information contained herein except for information purposes and not transmit, reproduce or make available to any person, other than their professional advisors, this presentation or any of the information contained herein.** There are certain risks inherent in an investment in the securities of the Company that prospective investors should carefully consider before investing in the securities of the Company.

The securities will not be and have not been registered under the U.S. Securities Act or the securities laws of any state of the United States, and if sold in the United States or to, or for the account of benefit of, U.S. Persons, will be "restricted securities" within the meaning of Rule 144 under the U.S. Securities Act. The securities may be resold, pledged or otherwise transferred only pursuant to an effective registration statement under the U.S. Securities Act or pursuant to an applicable exemption from the registration requirements of the U.S. Securities Act.

IN MAKING AN INVESTMENT DECISION, INVESTORS MUST RELY ON THEIR OWN EXAMINATION OF THE COMPANY AND THE TERMS OF THE OFFERING, INCLUDING THE MERITS AND RISKS INVOLVED. THE SECURITIES HAVE NOT BEEN APPROVED OR DISAPPROVED BY THE SECURITIES AND EXCHANGE COMMISSION OR BY ANY STATE SECURITIES COMMISSION OR REGULATORY AUTHORITY. NO SECURITIES REGULATORY AUTHORITY OR SIMILAR AUTHORITY HAS REVIEWED OR IN ANY WAY PASSED ON THE ACCURACY OR ADEQUACY OF THIS PRESENTATION. ANY REPRESENTATION TO THE CONTRARY IS A CRIMINAL OFFENSE. No securities regulatory authority or similar authority has reviewed or in any way passed upon this presentation or the merits of the securities of the Company, and any representation to the contrary is an offence.

Forward-Looking Statements

This presentation contains statements that, to the extent that they are not historical fact, may constitute "forward-looking information" within the meaning of applicable securities legislation. Any statements that express or involve discussions with respect to predictions, expectations, beliefs, plans, projections, objectives, assumptions or future events or performance (often, but not always using words or phrases such as "may", "would", "could", "will", "likely", "except", "anticipate", "believe", "intend", "plan", "forecast", "project", "estimate", "propose", "outlook", and other similar expressions, or stating that certain actions, events or results may, could, would, might or will occur or be taken or achieved) are not statements of historical fact and may be forward-looking information. Forward-looking information in this presentation includes, but is not limited to, information concerning the proposed RTO Transaction and the Lomero-Poyatos Transaction, including completion of any financings (including the size and timing for completion thereof) required in connection with the Lomero-Poyatos Transaction, receipt of any required regulatory approvals; preparation of technical reports in connection with the RTO Transaction and the Lomero-Poyatos Transaction; the estimated valuation of the Company following completion of the RTO Transaction and the Lomero-Poyatos Transaction; the business, operations and financial performance and condition of the Company following completion of the RTO Transaction and the Lomero-Poyatos Transaction; the change of the Company's name and ticker symbol in connection with the RTO Transaction and the Lomero-Poyatos Transaction; the financial impact and potential benefits of the RTO Transaction and the Lomero-Poyatos Transaction; the expected completion and implementation of the RTO Transaction and the Lomero-Poyatos Transaction; the nature of the Company's outlook following completion of the RTO Transaction and the Lomero-Poyatos Transaction; information concerning the plans and objectives of management for future exploration and operations on the Company's projects; timing, type and amount of future exploration activities; results of future exploration and operations, including any drilling, assay and sampling results; advancement of the Company's projects; declaration of a mineral resource estimate in the future; potential expansion of mineralization; work plans and exploration programs to be conducted; and any other information contained herein that is not a statement of historical fact.

Forward-looking information is based on management's reasonable estimates, expectations, analyses and opinions at the date the information is provided, and is based on a number of assumptions and subject to a variety of risks and uncertainties and other factors that could cause actual events or results to differ materially from those projected in the forward-looking information. Assumptions upon which such forward-looking information are based include, without limitation, that all required shareholder, regulatory and third-party consents, including TSX Venture Exchange approval of the RTO Transaction and the Lomero-Poyatos Transaction (and any approvals required for the subscription receipt financing in respect of the RTO Transaction or for any financing completed in respect of the Lomero-Poyatos Transaction) will be obtained and that any other conditions to completion of the RTO Transaction and the Lomero-Poyatos Transaction will be satisfied (or waived); that the RTO Transaction and the Lomero-Poyatos Transaction (including any financing related thereto) will be completed as expected; that the Company's name and ticker symbol will be changed in connection with the RTO Transaction and the Lomero-Poyatos Transaction; preparation of technical reports in connection with the RTO Transaction and the Lomero-Poyatos Transaction; the estimated valuation of the Company following completion of the RTO Transaction and the Lomero-Poyatos Transaction being accurate; no significant event occurring outside the ordinary course of business; the legislative and regulatory environment; impact of increasing competition; current technological trends; price of silver, gold and other metals; costs of exploration and development; anticipated results of exploration and development activities; the ability to operate in a safe and effective manner; and the ability to obtain financing on reasonable terms. Readers are cautioned that the foregoing list is not exhaustive. Further, the aforementioned assumptions may be affected by the negative disruptive effect of the novel coronavirus ("COVID-19") pandemic, which has resulted in a widespread health crisis that has already affected the economies and financial markets of many countries around the world. The international response to the spread of COVID-19 has led to significant restrictions on travel; temporary business closures; quarantines; global stock market and financial market volatility; a general reduction in consumer activity; operating, supply chain and project development delays and disruptions; and declining trade and market sentiment, all of which have and could further affect commodity prices, interest rates, credit ratings and credit risk. The continuing and additional business interruptions, expenses and delays relating to COVID-19, could have a material adverse impact on the Company's plans, operations, financial condition and the market for its securities; however, as at the date of this presentation, such cannot be reasonably estimated.

The Company's actual results, programs and financial position could differ materially from those anticipated in such forward-looking information as a result of numerous factors, risks and uncertainties, many of which are beyond the Company's control. These include, but are not limited to, that the RTO Transaction and the Lomero-Poyatos Transaction (including any financing related thereto) will not be completed as planned; delays in obtaining any required shareholder, governmental and regulatory approvals; risks that the Company's name and ticker symbol will not be changed as planned; that the anticipated benefits of the RTO Transaction and the Lomero-Poyatos Transaction will not be achieved, or that the integration of the companies will not occur as planned or such integration will be more difficult, time consuming or costly than expected; the estimated valuation of the Company following completion of the RTO Transaction and the Lomero-Poyatos Transaction not being accurate; legislative changes that impact mining operations in which the Company conducts business; results of exploration activities and development of mineral properties; interpretation of drilling results and other geological data; uncertainties of mineral resource estimations; receipt and security of mineral property titles; changes in project parameters; possible variations of mineral grade or recovery rates; failure of plant, equipment or processes to operate as anticipated; accidents; labour disputes; the inability to obtain key personnel and parts related to operations; receipt of licenses to conduct mining activities; country risks; civil unrest; timing and possible outcome of pending litigation; liabilities and risks, including environmental liabilities and risks, inherent in the development and production of the Company's projects; cost overruns or unanticipated costs and expenses; the availability of funds; fluctuations in metal prices; currency fluctuations; general market and industry conditions; competition; and COVID-19. There is no assurance that forward-looking information will prove to be accurate, as actual results and future events could differ materially from those anticipated in such information. Accordingly, readers should not place undue reliance on this information. The Company (including, for greater certainty, ESV Resources Corp., the Guia Antigua Vendor, Gran Colombia Titiribi and Viaggio) does not undertake to update any forward-looking information, except as, and to the extent required by, applicable securities laws.

Future-Oriented Financial Statements

to the extent any forward-looking information in this presentation constitutes "future-oriented financial information" or "financial outlooks" within the meaning of applicable Canadian securities laws, such information is being provided to demonstrate the anticipated market penetration and the reader is cautioned that this information may not be appropriate for any other purpose and the reader should not place undue reliance on such future-oriented financial information and financial outlooks. Future-oriented financial information and financial outlooks, as with forward-looking information generally, are, without limitation, based on the assumptions and subject to the risks set out above under the heading "Forward-Looking Information". The Company's actual financial position and results of operations may differ materially from management's current expectations and, as a result, the Company's valuation may differ materially from the valuation provided in this presentation. Such information is presented for illustrative purposes only and may not be an indication of the Company's actual financial position or results of operations.

Research and Public Data

This presentation also contains or references certain industry data which is based upon information from independent industry publications, market research, analyst reports and surveys and other publicly available sources. Although the Company believes these sources to be generally reliable, such information is subject to interpretation and cannot be verified with complete certainty due to limits on the availability and reliability of raw data, the voluntary nature of the data gathering process and other inherent limitations and uncertainties. The Company (including, for greater certainty, ESV Resources Corp., the Guia Antigua Vendor, Gran Colombia Titiribi and Viaggio) has not independently verified any of the data from third party sources referred to in this presentation and accordingly, the accuracy and completeness of such data is not guaranteed.

Technical Information

The scientific and technical data contained in this presentation was reviewed and prepared under the supervision of Dr. Stewart D. Redwood, BSc(Hons), PhD, FIMMM, FGS, Consulting Geologist, is a Qualified Person under National Instrument 43-101 Standards of Disclosure for Mineral Projects. Dr. Redwood has reviewed and approved the data related to the exploration information disclosed in this presentation.

Focused on the Advancement of the Lomero-Poyatos Project

Preparing updated Mineral Resource Estimate and scoping study

Denarius' **flagship project**, Lomero-Poyatos, has a historical resource estimate of 20.93 MT of 3.1 g/t gold, 62 g/t silver, 0.9% copper, 0.9% lead and 3.1% zinc

The Iberian Pyrite Belt is the **largest concentration of massive sulfides in the world**

Validation and infill drill holes continue to **confirm the grades and widths** of intersections in selected drill holes from previous drilling campaigns

Seasoned team with a proven track record of success

Committed to building **long-term ESG strategies** focused on health, safety, community and environment

Portfolio of Minerals

Spain

Lomero-Poyatos Project

100% Owned
Iberian Pyrite Belt

Denarius' **flagship project** is in the north-east part of the Spanish/Portuguese Iberian Pyrite Belt in the Huelva Province of Southern Spain

The Iberian Pyrite Belt is the **largest concentration of massive sulfides in the world**

The estimated **historical production** at the Lomero-Poyatos Project was at least **2.6 million tonnes** of massive sulphide ore grading 5g/t Au, 80g/t Ag, 1.20% Cu, 1.10% Pb and 2.91% Zn

Exploration conducted at Lomero by prior owners indicates a **Historical Resource estimate of 20.93 MT** with a **present-day value of \$8 Billion**

(1) CuEq is based on the grades in the Behre Dolbear 2012 NI 43-101 historical resource estimate and metal prices of US\$1,500.00/oz Au, US\$18.00/oz Ag, US\$3.00/lb Cu, US\$0.80/lb Pb and US\$1.00/lb Zn.

Colombia

Guia Antigua Project

100% Owned
Segovia Mining District

Zancudo Project

70/30 JV Agreement with IAMGold
Titibiri Mining District

A mining license agreement for the exploration development and mining in a 386-hectare area within the eastern part of GCM's mining title RPP-140 in the Segovia Mining District

GCM Mining Corp. carries out mining, processing and production of gold from their flagship Segovia operations El Silencio, Providencia and Sandra K mines on the adjacent, western part of the mining title RPP-140

These high-grade mines have been in continuous operation for over 150 years and over that time have produced roughly 6 million ounces of gold

IAMGOLD has the Option to acquire 65% interest in Zancudo by incurring an aggregate of US\$10 million of mineral exploration over a six-year period

The Zancudo deposit is located on the western side of the Central Cordillera of the Colombian Andes

The deposit lies within the Romeral terrane, covered by continental sediments comprising gray to green colored conglomerates, sandstones, shales, and coal seams

Gold mineralization occurs in two zones at El Zancudo the Upper Zone and the lower zone

Evolution of Denarius Metals

September 2020

ESV Resources announces RTO and name change to **Denarius Silver** to become a silver-focused exploration company

Enters into agreements to acquire Guia Antigua and Zancudo silver-gold projects in historic mining districts in Colombia.

February 2021

Closes RTO, acquisitions of Guia Antigua and Zancudo and a CA\$8.4M private placement.

Announces LOI to acquire Lomero project in Spain.

March 2021

Begins trading on the TSXV (DSLVL)

Closes CA\$33.75M private placement of shares/warrants to fund acquisition and exploration of Lomero.

April 2021

Closes acquisition of Lomero-Poyatos

January 2022

Announces initial drill results from first four holes at Lomero increasing confidence in historic resource.

October 2021

Commences diamond drilling program at Lomero with two rigs to validate the historic mineral resource and in-fill drill the lower levels of the mine.

August 2021

Receives drilling permit for its exploration program at Lomero.

July 2021

Announces listing of warrants on the TSXV.
Announces exploration plan and targets for Lomero.
Commences drilling program at Guia Antigua.

February 2022

Changes name to **Denarius Metals** to reflect broader focus to include a wider range of metals.

Announces drill results from four additional holes that confirm that the massive and semi-massive sulfide zones at Lomero are significantly enriched in gold and validate the thickness and grades of selected drill holes from previous drilling campaigns.

Upcoming 2022

- Drilling program will continue through 2022 at the Lomero-Poyatos Project in Spain
- Third drill rig added at Lomero-Poyatos, Spain. Fourth drill rig being added that will be operational in June 2022.
- Geophysical and metallurgical studies are also being conducted at Lomero-Poyatos, Spain
- Preparing updated Mineral Resource Estimate and scoping study for Lomero-Poyatos by Q3-2022.

Leadership

Management

Serafino Iacono *Executive Chairman/CEO*

Mr. Iacono has over thirty years of experience in capital markets and public companies and has raised more than four billion dollars for numerous natural resource projects internationally. He is currently a director and chairman of Western Atlas Resources Inc. and is a former Co-Chairman and an Executive Director of Pacific Exploration and Production Corporation and a former director of Petromagdalena Energy Corp.

Mike Davies *Chief Financial Officer*

Mr. Davies is a Chartered Professional Accountant (Ontario) with over 20 years of extensive international and public company experience in financial management, strategic planning and external reporting in resource and other sectors, including management positions with PetroMagdalena Energy Corp., Coalcorp Mining Inc., Medoro Resources Inc., LAC Minerals Ltd. and Pamour/Giant Yellowknife Mines. Mr. Davies also holds a Bachelor of Commerce degree from the University of Toronto.

Amanda Fullerton *VP Legal and Secretary*

Ms. Fullerton, has been the Vice President, Legal of GCM Mining since March 2019. She has over 12 years of experience in the areas of corporate finance, mergers and acquisitions and corporate/commercial law focused primarily in the resource sector, gained through her previous positions at Macquarie Capital Markets Canada Ltd., Fasken Martineau DuMoulin LLP and Macleod Dixon LLP (now Norton Rose Fulbright LLP). She holds an LL.B. from the University of Ottawa and a Bachelor of Medical Science degree in Physiology from Western University.

Alessandro Cecchi; M.Sc. *VP Exploration*

Mr. Cecchi is an exploration geologist with over eighteen years of experience, with a focus on gold exploration and development in South America. Prior to joining, Mr. Cecchi was Corporate Technical Manager at Medoro Resources, and also held senior geologist positions at Hecla Mining, Dotly Financial and Gold Mines of Sardinia. Mr. Cecchi served as exploration geologist at Bolivar Goldfields. Mr. Cecchi has a Bachelor of Science degree in Geology and a Master of Science degree from University of Tierra in Pisa, Italy.

Christopher Haldane *VP Investor Relations*

Mr. Haldane joined the Company as Vice President, Investor Relations in June 2020. Previously, he served as Manager, Investor Relations at Marathon Gold Corp. from January 2013 to March 2020. Mr. Haldane has over twelve years' experience in investor relations and corporate communications for publicly traded mining companies and began his career at one of Canada's longest established investor relations firms where he was responsible for the management and execution of investor relations programs for several Canadian junior mining and oil and gas companies.

A Track Record of Success

Board of Directors

Jeff Couch Director

Lombardo Paredes-Arenas Director

Jesus Perez Director

Francisco Sole Director

Paul Sparkes Director

Jerome Vitale Director

A board and management team with the international experience and operational expertise to quickly advance projects and maximize shareholder value.

Why Spain

Spain has very **diverse geological deposits and resources** in its territory, which results in different kinds of mining production. This mining wealth positions Spain as the **third largest producer of copper ore**, one of only four states that produce nickel ore and the leading producer of spar-fluorine. ⁽¹⁾

- ▲ Following Spain's inclusion as an EU Member State, all restrictions on foreign investment in mining were removed. Any natural or legal person, regardless of their nationality, may obtain authorizations and permits to enable them to develop mineral deposits or other geological resources within Spain. ⁽¹⁾
- ▲ The Spanish economy has steadily surpassed that of its European counterparts over the last five years, in pre-pandemic circumstances. ⁽²⁾
- ▲ With a GDP of \$1.2 billion, **Spain is the 4th economy of the EU** - save for that of the United Kingdom - and the 14th in the world. ⁽²⁾
- ▲ **European market.** Unrestricted access to the European market with its more than 500 million consumers and world's highest purchasing power. ⁽²⁾

Aggressively drilling its flagship Lomero-Poyatos polymetallic project in the prolific Iberian Pyrite Belt in Southern Spain.

LOMERO-POYATOS PROJECT

Robust regional infrastructure provides

The Lomero-Poyatos deposit site is well serviced by water, power & paved highways to Seville and Huelva.

Multiple high capacity processing facilities as well as shipping access at Huelva Port.

Several nearby villages, representing sources of labour, accommodation, and general services.

Lomero-Poyatos Project

Iberian Pyrite Belt, Southern Spain

Exploration History

Billiton

In 1984, conducted a programme of 60 underground diamond drilling holes.

Outokumpu & Tharsis Mining

In 1989 the Joint Venture drilled several (9) holes from surface to assess the potential at depth beyond the mined areas.

Cambridge Mineral Resources (CMR)

CMR carried out a major exploration program from 2001-2007 including a PA with Newmont Mining, drilling 48 holes, and commissioned several technical studies on potential mining and processing methods.

Kimberly Diamonds Ltd (KDL)

From 2015-2017, KDL drilled 8 diamond holes when it held an "Investigation Permit".

Production History

Mining commenced in the late 1850's and continued until 1990.

A small amount of ore came from the two pits at Lomero (east) and Poyatos (west).

Most of the historical production (2.6 million tonnes) came from underground.

Historical Resource

Lomero-Poyatos – Spain

Exploration Objectives for 2022

Drilling Program designed by SRK

Verification Drilling: 8 diamond drillholes, totaling 1,600 m to be conducted by twining of selected historical holes covering a spatial range of the deposit.

Infill Drilling: 56 diamond drillholes, totaling 15,600 m, designed to produce a 50x50 m drilling patten in the lower levels of the existing mining operation and provisional geological model.

Extension Drilling: 17 diamond drillholes, 6,300 m – to initially explore around the currently known margins of the deposit and test geophysical anomalies within the property.

Drill Program			
Type	Count of Drillhole Name	Sum of Target Depth	Cost of Drilling
Verification	8	1,600	\$395,000
Infill	56	15,600	\$2,765,000
Extension	17	6,300	\$840,000
Sub Total	81	23,500	\$4,000,000

Additional Items	
Metallurgical Testing	750,000
G&A	3,000,000
PFS*	4,000,000
Total	7,750,000

* Begin putting mining plan together in 2021

* Dollar amounts in \$USD

Denarius' initial 23,500 meters drilling campaign at Lomero commenced in October 2021 and is continuing in 2022 with three drill rigs currently in operation

Through April 2022:

Denarius completed approximately 15,900 meters of drilling, representing 68% of the initial program, in 58 drill holes with three additional drill holes in process

To Date:

Denarius has received complete assays for 38 drill holes and samples for an additional 8 drill holes are pending results. A fourth diamond drill rig is being mobilized to begin testing the geophysical anomalies once available and is expected to be operational in mid-June 2022

Why Colombia

OECD member country with a consistently expanding economy and one of the lowest inflation rates in Latin America.

(Source: Focus-Economics, Colombia Economy)

GCM Mining will be providing in-country operational expertise to Denarius to help advance their projects in Colombia.

Serafino Iacono,
Executive Chairman and CEO of Denarius

Guia Antigua Project

The High-Grade Segovia Mining District

Exploring a Very Productive Mining District

The Guia Antigua Project is a mining license agreement for the eastern part of Gran Colombia's mining title RPP-140.

GCM Mining carries out mining, processing and production of gold from their flagship Segovia operations El Silencio, Providencia and Sandra K mines on the adjacent, western part of the mining title RPP-140.

These high-grade mines have been in continuous operation for over 150 years and over that time have produced roughly 5 million ounces of gold.

Vein System Potential

2018 drill program identified 3 new veins and excellent grades including a high mineralized intercept of 3,268 g/t Ag, 8.57 g/t Au across a 1.2m drill length.

The Guia Antigua vein is the current focus of the Guia Antigua Project which is similar in geology, structure, vein style and mineralogy to the veins of the High Grade Segovia Operations.

Early exploration indicates very strong potential for further discoveries in the area.

Zancudo Project

Timeline & Mineral Exploration Agreement

Option Agreement with IAMGOLD:

First Option:

IAMGOLD has the Option to acquire 65% interest in Zancudo by incurring an aggregate of US\$10 million of mineral exploration over a six-year period.

Second Option:

IAMGOLD has a second option to acquire a further 5% undivided interest, for an aggregate 70% undivided interest in Zancudo, by completing a feasibility study within three years after exercising the First Option.

Upon exercise of the First Option or the Second Option, the parties will form a joint venture to hold Zancudo, to advance the exploration and, if feasible, to advance the development and mining of any commercially exploitable ore body.

Why Invest

LOMERO-POYATOS FLAGSHIP PROJECT

Denarius' 100% owned, world class asset, located in the Iberian Pyrite belt, with a historical resource estimate of 20.93 MT of 3.1 g/t gold, 62 g/t silver, 0.9% copper, 0.9% lead and 3.1% zinc. Drilling to date affirms the presence of the massive and semi-massive sulphides.

FAVORABLE PROXIMITY

The company assets are located in close proximity to massively productive operations with **robust infrastructure** in place to help quickly advance projects in both **Spain and Colombia**.

RICH HISTORY

The team is encouraged by the historically **productive mining districts** the mine sites occupy; in particular, the **Copper Rich Iberian Pyrite Belt** which has production dating back to Roman Times.

HIGH GRADES

Exploration programs on all three projects have returned **high grade mineralization** consistent with the rich history of the properties as well as the prolific neighboring deposits.

EXPERIENCED TEAM

The company offers a board and management team with **international experience** and operational **expertise to quickly advance projects** and maximize shareholder value.
