# CAUTIONARY STATEMENTS

## ***Cautionary Notes - Information Purposes Only***

The information contained in this presentation is provided by OceanaGold Corporation ("OGC") for informational purposes only and does not constitute an offer to issue or arrange to issue, or the solicitation of an offer to issue, securities of OGC or other financial products. The information contained herein is not investment or financial product advice and has been prepared without taking into account the investment objectives, financial situation or particular needs of any particular person. No representation or warranty, express or implied, is made as to the fairness, accuracy, completeness or correctness of the information, opinions and conclusion contained in this presentation, except as otherwise required by law. To the maximum extent permitted by law, none of OGC or any of its directors, officers, employees or agents accepts any liability, including, without limitation, any liability arising out of fault or negligence, for any loss arising from the use of the information contained in this presentation. Furthermore, this presentation does not constitute an offer of shares for sale in the United States or to any person that is, or is acting for the account or benefit of, any U.S. person (as defined in Regulation S under the United States Securities Act of 1933, as amended (the "Securities Act")) ("U.S. Person"), or in any other jurisdiction in which such an offer would be illegal. OGC's shares have not been and will not be registered under the Securities Act.

## ***Cautionary Statement Concerning Forward Looking Information***

This presentation contains information or statements that constitute "forward-looking" information or statements within the meaning of applicable securities laws. Any statements that express or involve discussions with respect to predictions, expectations, beliefs, plans, forecasts, projections, objectives, assumptions or future events or performance (often, but not always, using words or phrases such as "expects" or "does not expect", "is expected", "anticipates" or "does not anticipate", "plans", "estimates" or "intends", or stating that certain actions, events or results "may", "could", "would", "might" or "will" be taken, occur or be achieved) are not statements of historical fact and may be forward-looking statements. Forward-looking statements are subject to a variety of risks and uncertainties which could cause actual events or results to differ materially from those expressed in the forward-looking statements and information. They include, among others, the accuracy of mineral reserve and resource estimates and related assumptions, inherent operating risks, and those risk factors identified in OGC's most recent annual information forms prepared and filed with securities regulators which are available on SEDAR at [www.sedar.com](http://www.sedar.com) under OGC's profile.

With respect to forward-looking statements or information in this presentation, in making such statements or providing such information OGC has made assumptions regarding, among other things: (i) the accuracy of the estimation of mineral resources and mineral reserves; (ii) that exploration activities and studies will provide results that support anticipated development and extraction activities; (iii) that studies of estimated mine life and production rates at its mineral projects will provide results that support anticipated development and extraction activities; (iv) the accuracy of capital and operating cost estimates made in respect of OGC's mines and development projects; (v) that OGC will be able to obtain additional financing on satisfactory terms, including financing necessary to advance the development of its projects; (vi) that infrastructure anticipated to be developed or operated by third parties, will be developed and/or operated as currently anticipated; (vii) that laws, rules and regulations are fairly and impartially observed and enforced; (viii) that the market prices for gold remain at levels that justify development and/or operation of any mineral project; (ix) that OGC will be able to obtain, maintain, renew or extend required permits and licenses; (x) that various environmental and social regulations and requirements do not impact OGC's exploration activities or development plans; and (xi) that key personnel will continue their employment with OGC.

All references to Mineral Reserves and Mineral Resources in this presentation are calculated in accordance with the standards set by the Canadian Institute of Mining, Metallurgy and Petroleum. Actual recoveries of mineral products may differ from Mineral Reserves and Mineral Resources as reported due to inherent uncertainties in acceptable estimating techniques. In particular, "Indicated" and "Inferred" Mineral Resources have a great amount of uncertainty as to their existence and economic and legal feasibility. It cannot be assumed that all or any part of an "Indicated" or "Inferred" Mineral Resource will ever be upgraded to a higher category of resource. Readers are cautioned not to assume that all or any part of the mineral deposits in these categories will ever be converted into Proven or Probable Reserves. Mineral Resources that are not Mineral Reserves do not have demonstrated economic viability. The accuracy of any such estimates is a function of the quantity and quality of available data, and of the assumptions made and judgments used in engineering and geological interpretation, the anticipated tonnages and grades that will be mined and the estimated level of recovery that will be realized, which may prove to be unreliable and depend, to a certain extent, upon the analysis of drilling results and statistical inferences that may ultimately prove to be inaccurate. Mineral Resource estimates may have to be re-estimated based on: (i) fluctuations in the price of gold or other mineral prices; (ii) results of drilling; (iii) metallurgical testing and other studies; (iv) proposed mining operations, including dilution; (v) the evaluation of mine plans subsequent to the date of any estimates; and (vi) the possible failure to receive required permits, approvals and licences.

## ***General Presentation Notes***

All AISC and cash costs are net of by-product credits unless otherwise stated.  
All financials are denominated in US Dollars unless otherwise stated.

# FOCUSED ON DELIVERING SHAREHOLDER VALUE

A global intermediate gold producer with a strong near-term growth profile

TSX: OGC

SHARES OUTSTANDING<sup>1</sup>: 707M

MARKET CAPITALISATION<sup>2</sup>: C\$1.7B

NET DEBT<sup>3</sup>: \$172M

Operate safely and responsibly

Deliver on guidance

Optimize operations and maximize FCF

Execute on organic growth opportunities

Increase returns to shareholders

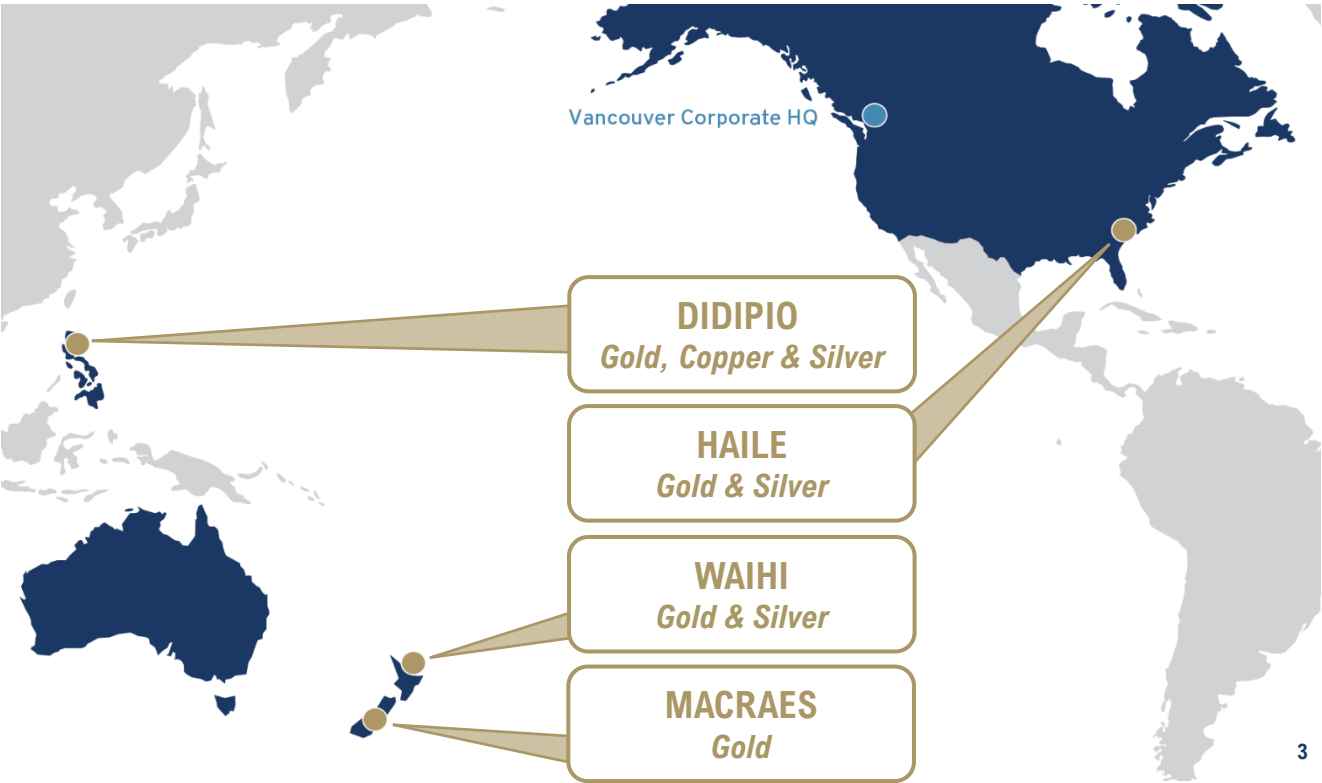

## 2023 GUIDANCE<sup>4</sup>

460,000 – 480,000 ounces gold

12,000 – 14,000 tonnes copper

Cash Costs: \$850 – \$950 per ounce

AISC: \$1,550 – \$1,650 per ounce

1. As at September 30, 2023.

2. As at October 31, 2023.

3. As at September 30, 2023, inclusive of equipment leases.

4. Refer to October 25, 2023, Q3 MD&A for more information.

# OUR PURPOSE

## Mining gold for a better future

The **gold**, **copper** and **silver** we produce help power the global economy; hold important historic and cultural significance; and are essential to the renewable energy and transport sectors, lifesaving medical devices and the technology that connects communities around the world

 **E**nvironment

 **S**ocial

 **G**overnance

- Goal of Net Zero greenhouse gas emissions by 2050
  - Pursuing decarbonization of the electricity supply by negotiating with our providers
  - Demonstrating ability to decarbonize mobile equipment at Macraes
  - Carbon reduction targets included in Management short term incentives
- Increasing local procurement at all operations
  - Formalized four funding mechanisms for local communities at Didipio
  - Conformance with the World Gold Council’s Conflict-Free Gold Standard at Didipio
  - Third annual Modern Slavery Statement released
- Independently assured as being in compliance with the World Gold Council’s Responsible Gold Mining Principles
  - Executive KPIs aligned with shareholder interests
  - Overwhelmingly independent Board, fully independent committees
  - 38% female representation on Board

# OUR VISION & VALUES

**Vision:** To be a company people trust, want to work for & partner with, supply & invest in, to create value

**We care for the safety, health and well-being of our people, the environment and local communities**

**We respect and listen to each other, embracing different views and diversity in all its forms**

**We do the right thing and take accountability to deliver on our commitments**

**We strive for excellence through learning, continuous improvement and innovating**

**We achieve great outcomes by everyone contributing and working together**

# OUR STRATEGY

To increase and sustain a higher value for OceanaGold shares

## STRATEGIES:

**Safely & responsibly deliver gold production**

**A caring, inclusive and winning culture**

**Increase resources and reserves cost effectively**

**Financial strength and returns**

**A premium rating with the investment community**

## TACTICS:

- Sustainability
  - Health & safety
- Operating excellence
- Value capture programs:
  - Asset management
  - Procurement
  - Continuous improvement

- Living the Vision and Values
- Capable and well led people

- Exploration
- Project execution
- Early stage entry
- External opportunities
- Technical excellence

- Capital management discipline
- Strong balance sheet
- Low cost capital
- Shareholder returns

- Independent Board
- Trusted Management
- Market engagement

## MEASURES:

- TRIFR and injury severity
- Responsible Gold Mining Principles
- Financial performance
- Operating performance

- Surveys
- Retention & development

- R&R replacement
- Projects delivered on budget and schedule
- Return on investment

- Return on investment
- Capital efficiency
- Leverage ratio and cost

- P/NAV
- TSR
- ESG ratings

# THREE-YEAR OUTLOOK<sup>2</sup>

## Increasing production and reducing AISC per ounce, lower capex in 2024/25

1. See 2022 Annual MD&A for further details on three-year outlook released February 21, 2023. Also, note the Cautionary Statement Concerning Forward Looking Information on slide 2 of this presentation

2. Refer to October 25, 2023, Q3 MD&A for more information on updated 2023 guidance

# UPCOMING CATALYSTS

# HAILE MINES FIRST ORE FROM UNDERGROUND

**Location:** South Carolina, USA

**Processing Type:** Carbon-in-leach flotation plant

**Mine Type:** Open Pit and Underground

**Mine Life:** 2034+<sup>3</sup>

**Commodities:** Gold, Silver

- Q3 weakest quarter of the year due to Mill Zone underperformance and pit transition
- Production from Mill Zone complete in Q3, stripping Ledbetter phase 2 is underway
- Annual production guidance revised downward and costs upward
- First underground ore in Q3, first stope blasted and milled in October
- Horseshoe underground infill and expansion drilling continues with success

Operating Results		Q3 2023	YTD 2023	2023 Guidance <sup>2</sup>
<b>Safety (TRIFR)<sup>1</sup></b>	pmh	-	5.9	-
<b>Gold Production</b>	koz	<b>23.0</b>	114.6	140 - 150
<b>Gold Sales</b>	koz	<b>23.2</b>	116.6	
<b>Cash Costs</b>	\$/oz	<b>1,063</b>	720	950 - 1,050
<b>AISC</b>	\$/oz	<b>3,047</b>	1,755	1,950 - 2,050
<b>Total Capex</b>	\$M	<b>62.0</b>	158.8	180 - 200

1. 12 Month Moving Average – Total Recordable Injury Frequency

2. Refer to October 25, 2023, Q3 MD&A for more information

3. Based on NI 43-101 Technical Report Haile Gold Mine Lancaster County, South Carolina, March 30, 2022. Subject to review and change

# HAILE EXPANSION UPDATE

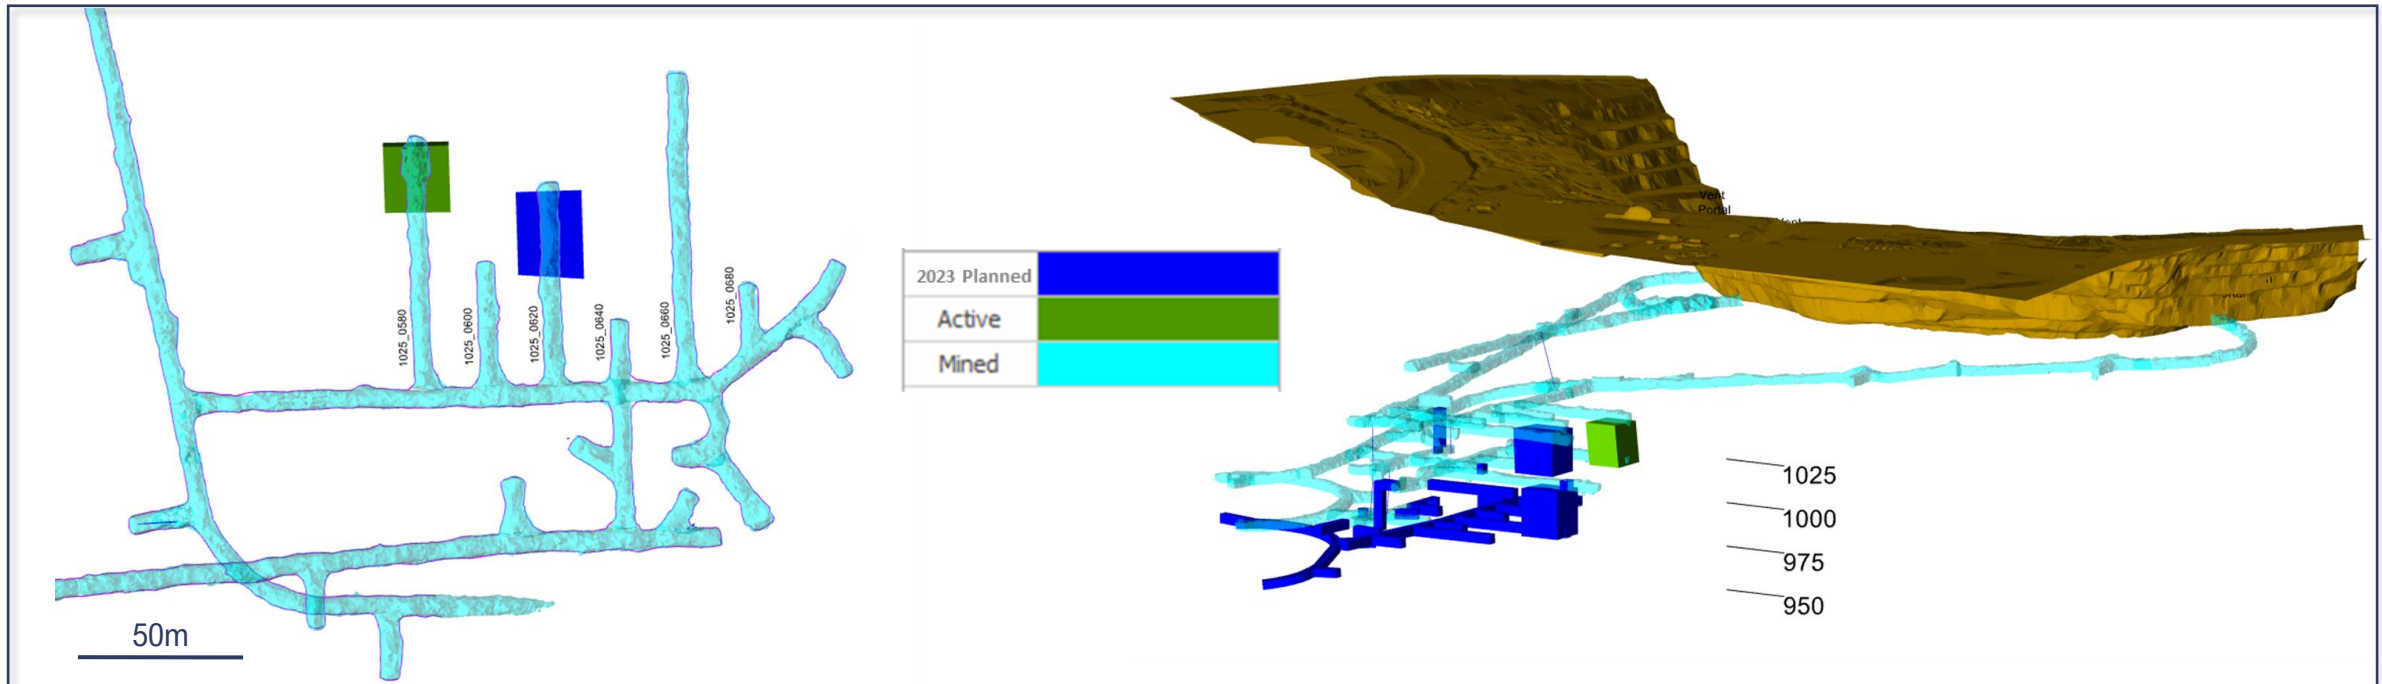

## Horseshoe underground mines first ore

### Development ore stockpiled in Q3<sup>1</sup>

- 3,800 ore tonnes mined from 1025 and 1000 levels in Q3
- 390 metres of development during the month of September, increasing through the remainder of the year

### First stope ore to mill in October

- Three stopes planned in Q4 from 1000 and 975 levels
- Full target mining rates expected by mid-2024

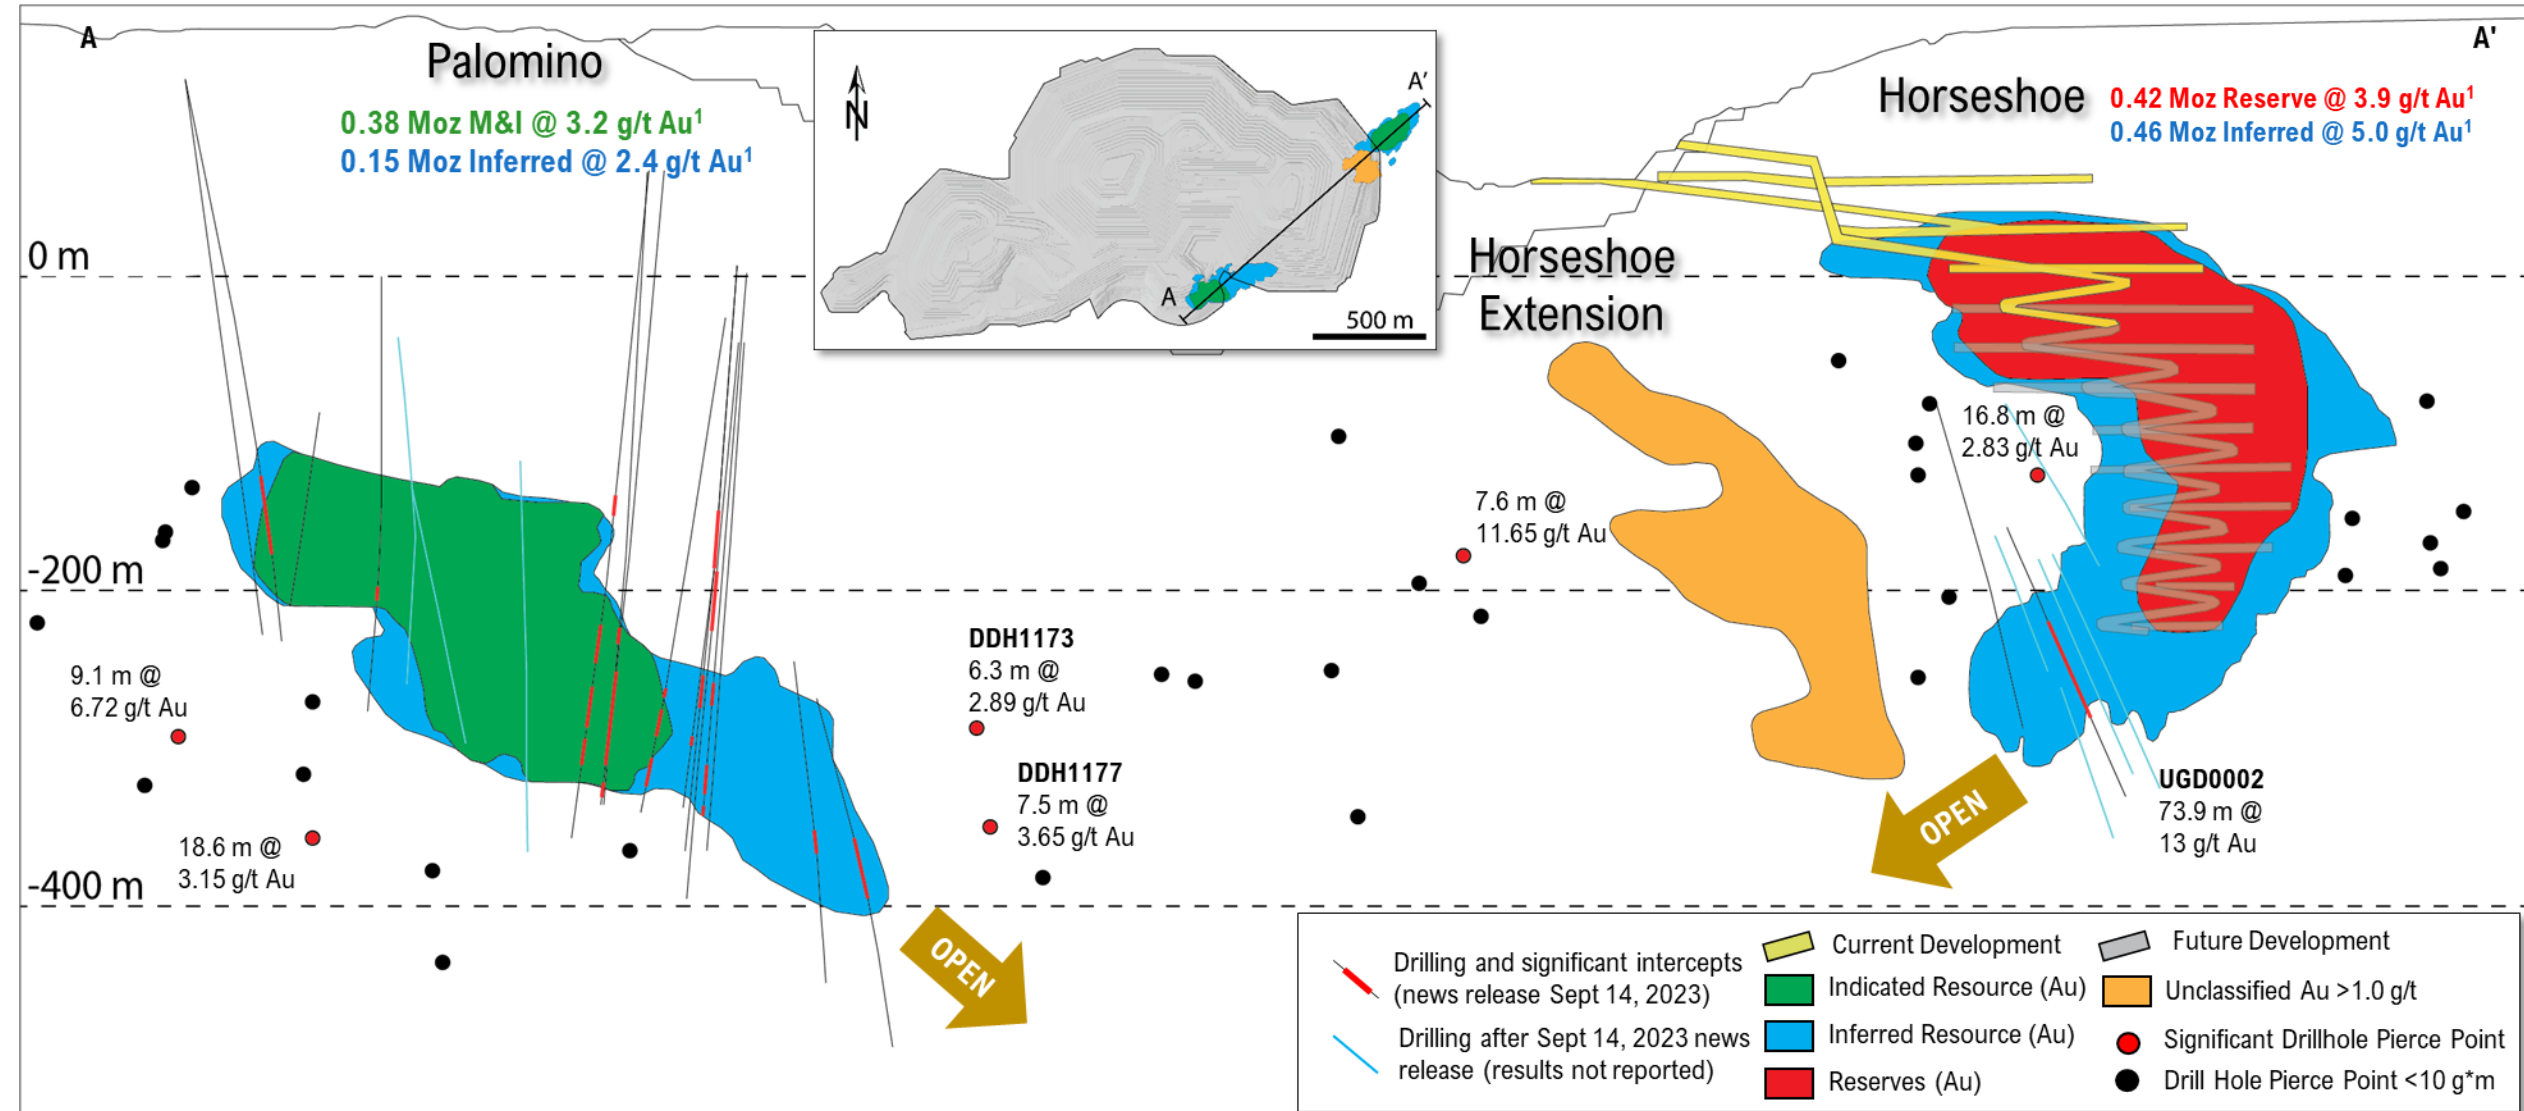

Horseshoe Underground plan view, 1025 level

Horseshoe Underground long section

1. Refer to September 14, 2023 news release for further details

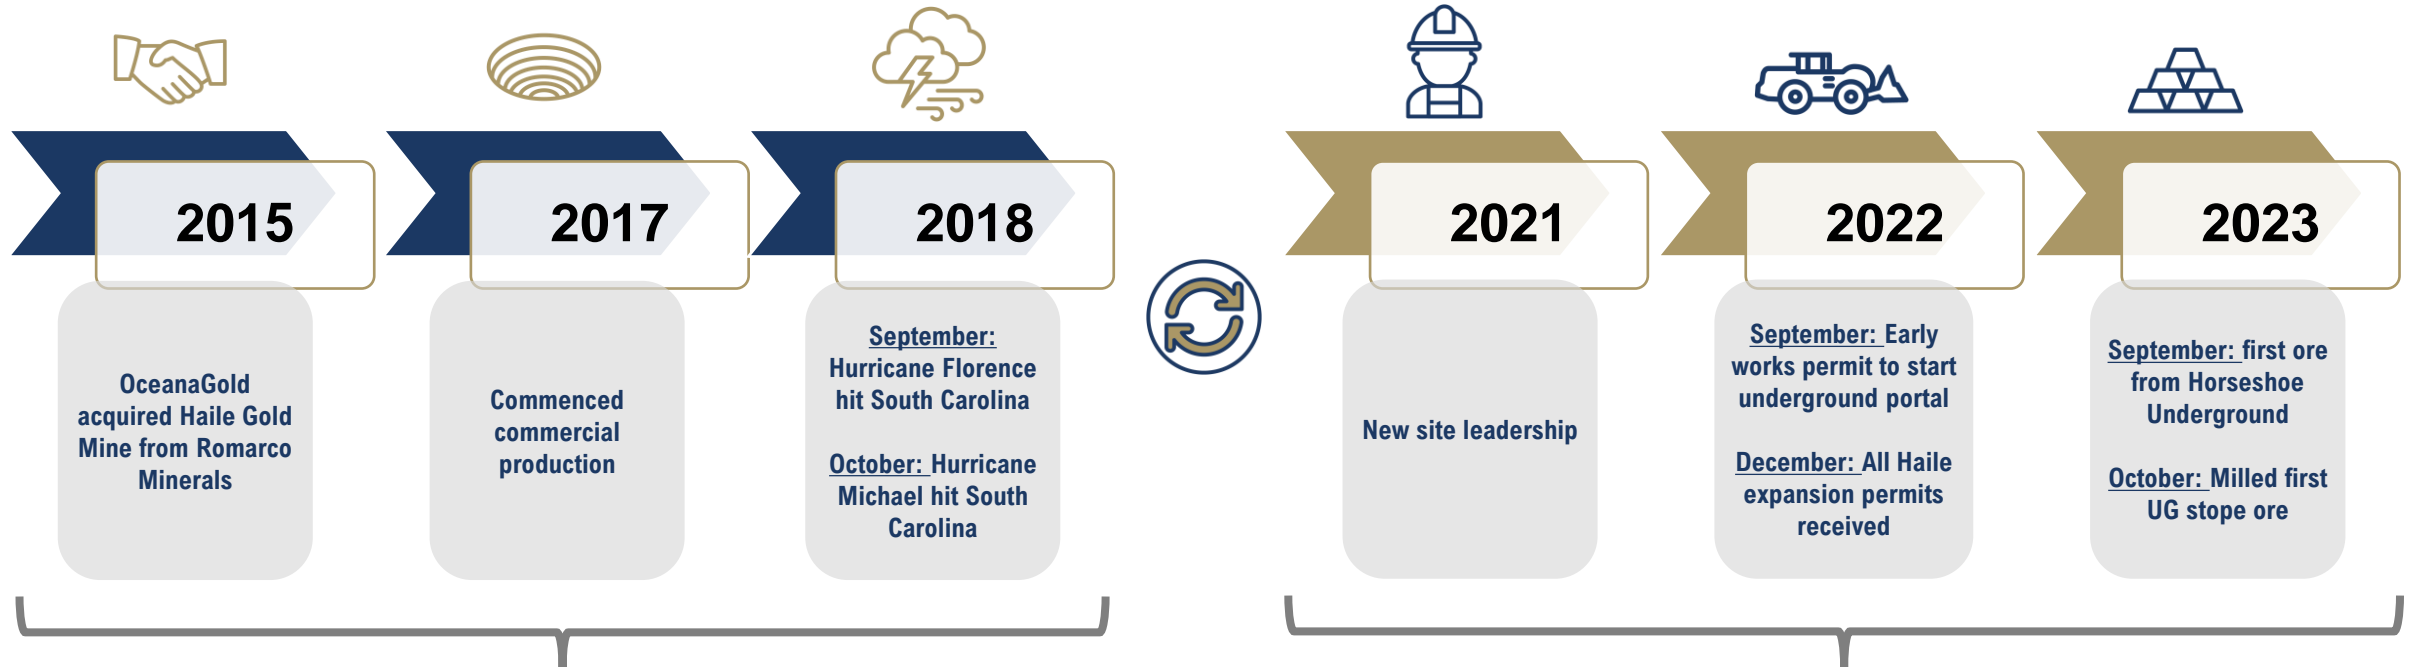

# HAILE EXPLORATION UPDATE

Horseshoe and Palomino represent upside to current plan<sup>2</sup>

1. Based on reported Resources and Reserves for the year ended 2022, see March 31, 2023 news release for more details. Subject to review and change.  
 2. Refer to September 14, 2023 news release for further details.

# HAILE IMPROVEMENTS TAKING HOLD

## Then

- High employee turnover
- Operations frequently impacted by weather events, excess water pumping
  - Lower mill throughput, misaligned site KPIs
- Delays in obtaining necessary permits for expansion

## Now

- Improved employee culture, <12% employee turnover
- Water risk significantly reduced with expanded water treatment ability, better road construction and drainage
- Improved ore fragmentation and blending for higher mill throughput and recoveries
  - Fully permitted for Technical Report LOM

# DIDIPIO GENERATING STRONG MARGINS & FCF

**Location:** Luzon Island, Philippines

**Processing Type:** Gravity, Flotation

**Mine Type:** Underground and stockpile

**Mine Life:** 2035+<sup>3</sup>

**Commodities:** Gold, Copper, Silver

- 2023 production guidance increased, cost guidance reduced
- Underground mining production increased from Q2
- Optimization study to increase UG mining rates to at least 2Mtpa is ongoing
- Continued focus on exploration in H2 targeting resource conversion and growth
- Community projects progressing well

Operating Results		Q3 2023	YTD 2023	2023 Guidance <sup>2</sup>
<b>Safety (TRIFR)<sup>1</sup></b>	pmh	-	1.9	-
<b>Gold Production</b>	koz	<b>30.5</b>	95.7	125 - 135
<b>Gold Sales</b>	koz	<b>29.7</b>	95.9

3. Based on Annual Information Form for the year ended December 31, 2022. Subject to review and change

# DIDIPIO PRODUCTION & CASH FLOW PROFILE<sup>1</sup>

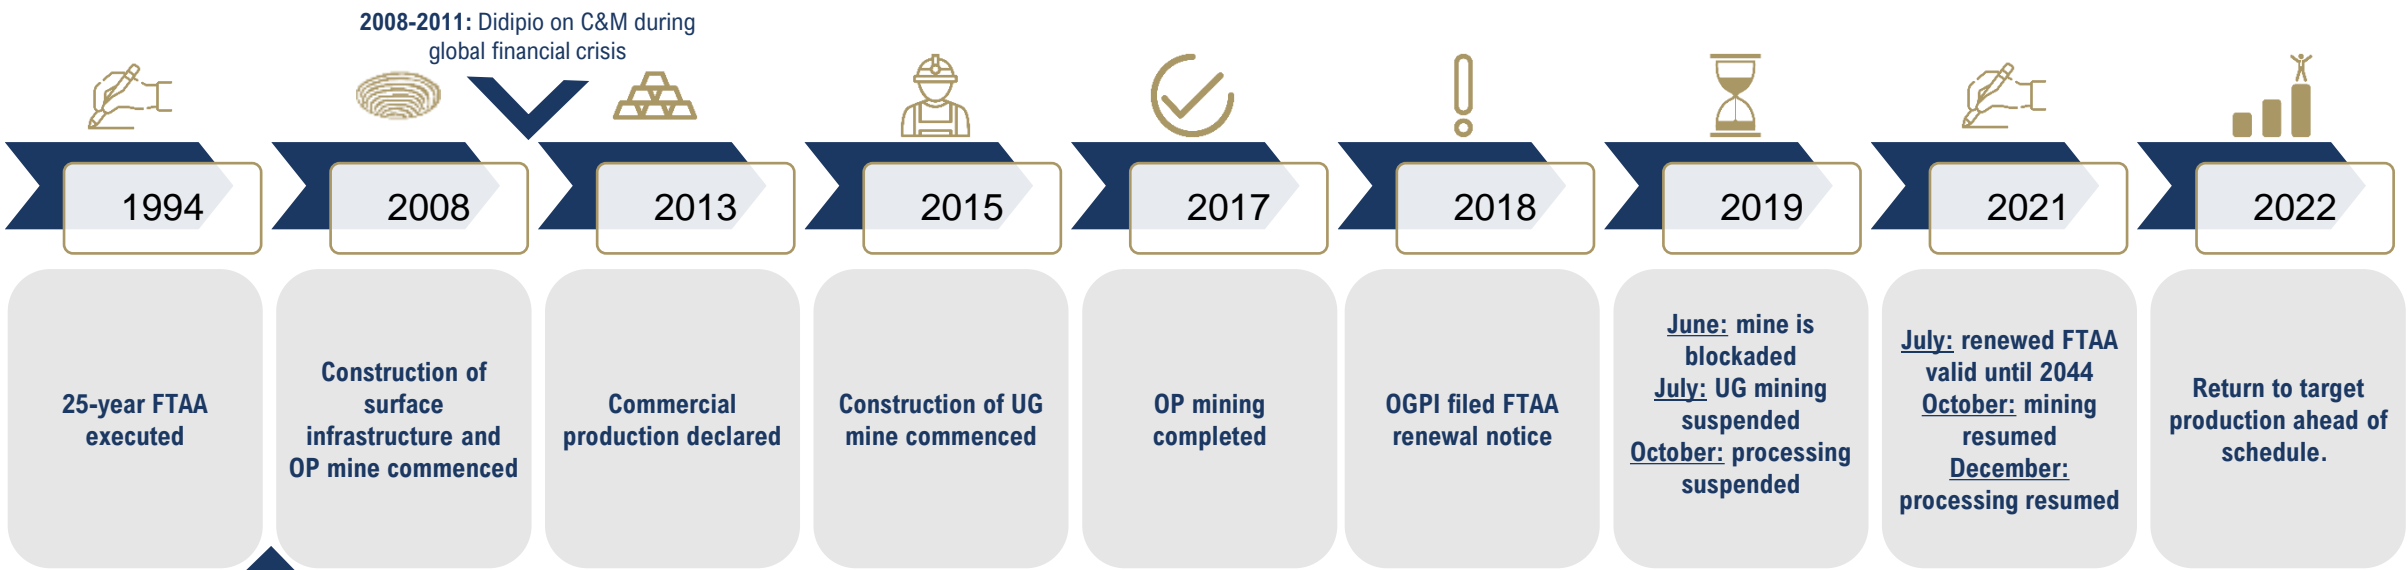

1. OceanaGold share based on NI 43-101 Technical Report Didipio Gold/Copper Operations Luzon Island, Philippines, March 31, 2022  
2. Gold equivalent production for copper is calculated at \$1,500 per ounce of gold at \$3.00 per pound copper prices

# HISTORY OF DIDIPIO MINE

Renewed FTAA: 25-year fiscal agreement in place until 2044<sup>1</sup>

1. Details can be found in the NI 43-101 Technical Report Didipio Gold/Copper Operations Luzon Island, Philippines, March 31, 2022.

# REQUIREMENTS OF THE FTAA

25-year fiscal agreement in place until 2044<sup>1</sup>

- ✓ Additional Social Development Fund equivalent to 1.5% of the gross mining revenue of the preceding calendar year
  - 1% will be allocated as Community Development Fund
  - 0.5% is for the Provincial Development Fund for the provinces of Quirino and Nueva Vizcaya
- ✓ Reclassification of the Net Smelter Return to be an allowable deduction and shared 60%/40% rather than wholly included in the government share
- ❑ Requirement to list at least 10% of the common shares in OceanaGold Philippines Inc. (OGPI) on the Philippine Stock Exchange (PSE) prior to July 14, 2024. Due to the minimum listing requirements of the PSE, targeting listing 20% of OGPI.
- ✓ OGPI to offer for purchase by the Central Bank not less than 25% of its annual gold doré production at a fair market price and on mutually agreed terms
- ✓ OGPI shall transfer its principal office to a local government unit in either of the host provinces of Nueva Vizcaya or Quirino within two years

1. Details can be found in the NI 43-101 Technical Report Didipio Gold/Copper Operations Luzon Island, Philippines, March 31, 2022

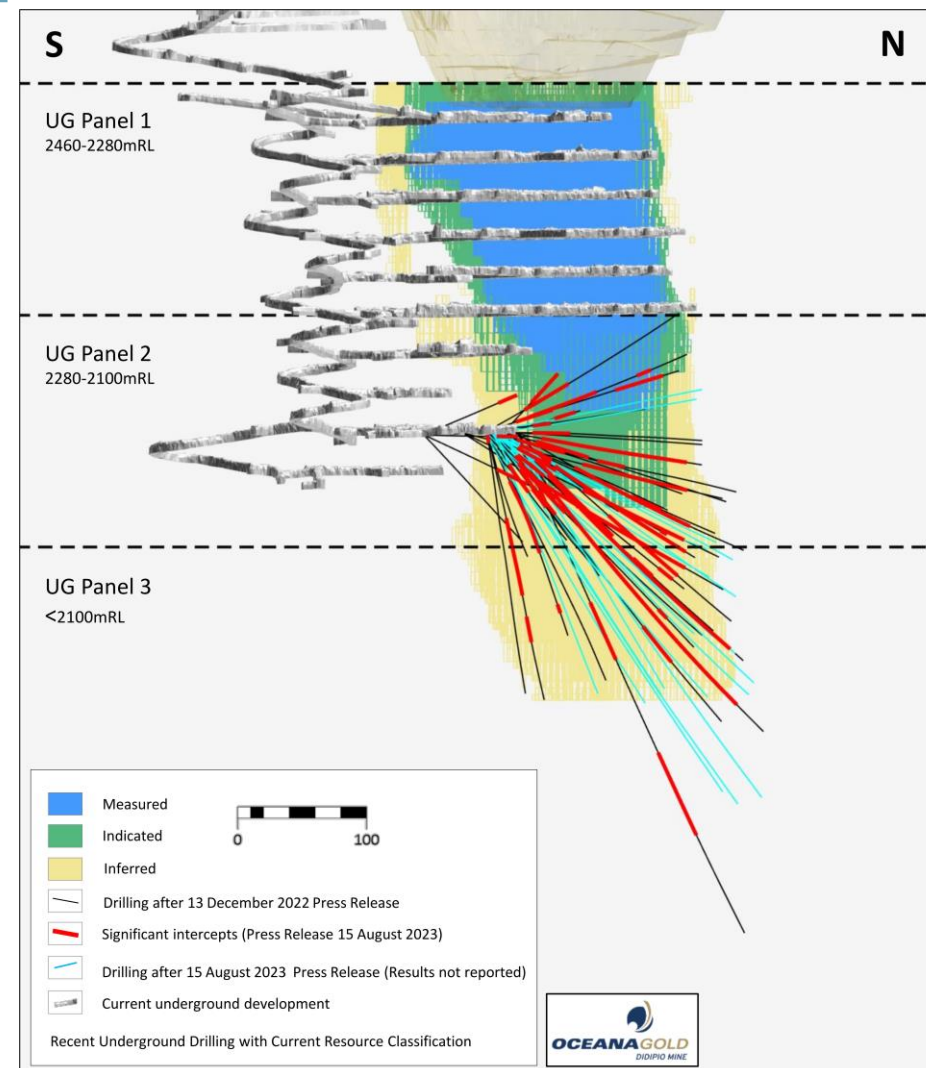

# DIDIPIO EXPLORATION UPSIDE

## Resource Conversion and Extensional Drilling Completed YTD 2023

### Focus on resource conversion and growth in 2023 and 2024<sup>1</sup>

- **Resource conversion:** lower levels of Panel 2 and Panel 3
- **Growth:**
  - **Eastern Breccia** - below the previously reported intercepts from December 2022 and outside existing Mineral Resources
  - **Exploration Panel 3** - Extensional drilling identified a deeper area of porphyry Au-Cu mineralization 100m below Inferred Resources (previously untested)
- Resource growth targets are all near mine infrastructure
- ~18,000 metres of drilling scheduled in 2023 with 13,464 metres completed YTD

Didipio resource model looking east with 2023 drilling YTD and existing mine development<sup>1</sup>

1. See news release dated August 15, 2023 for details.

# MACRAES PERFORMING STRONGLY

**Location:** South Island, New Zealand

**Processing Type:** Carbon-in-leach with pressure oxidation

**Mine Type:** Open pit and underground

**Mine Life:** 2028+<sup>3</sup>

**Commodity:** Gold

- Full repair of ball mill # 2 completed in August, performing strongly since
- 2023 production guidance increased, cost guidance reduced
- FRUG life extended into 2024 due to additional remnant ore
- Options study for Round Hill open pit ongoing, update in Q1/24

Operating Results		Q3 2023	YTD 2023	2023 Guidance <sup>2</sup>
<b>Safety (TRIFR)<sup>1</sup></b>	pmh	-	5.0	-
<b>Gold Production</b>	koz	<b>34.7</b>	100.9	130 - 140
<b>Gold Sales</b>	koz	<b>34.0</b>	100.8	
<b>Cash Costs</b>	\$/oz	<b>1,004</b>	1,034	900 - 1,000
<b>AISC</b>	\$/oz	<b>1,550</b>	1,611	1,575 - 1,675
<b>Total Capex</b>	\$M	<b>16.6</b>	60.2	80 - 90

1. 12 Month Moving Average – Total Recordable Injury Frequency Rate

2. Refer to October 25, 2023, Q3 MD&A for more information

3. Based on Annual Information Form for the year ended December 31, 2022. Subject to review and change

# WAIHI STRONGER Q4 EXPECTED

Location: North Island, New Zealand

Mine Type: Underground

Processing Type: Carbon-in-pulp

Mine Life: 2028+<sup>3</sup>

Commodities: Gold, Silver

- Challenging ground conditions impacted mining sequence in Q3
- Improved access to higher grade stopes is expected in Q4
- Maintaining full-year guidance ranges for production
- AISC guidance increased due to additional contractors and water management

Operating Results		Q3 2023	YTD 2023	2023 Guidance <sup>2</sup>
Safety (TRIFR) <sup>1</sup>	pmh	-	7.8	-
Gold Production	koz	10.9	35.9	50 - 60
Gold Sales	koz	11.0	35.8	
Cash Costs	\$/oz	1,549	1,284	1,350 - 1,450
AISC	\$/oz	2,196	1,949	1,800 - 1,900
Total Capex	\$M	12.0	36.4	45 - 55

1. 12 Month Moving Average – Total Recordable Injury Frequency Rate

2. Refer to October 25, 2023, Q3 MD&A for more information

3. Based on NI 43-101 Technical Report, Waihi District - Martha Underground Feasibility Study dated March 31, 2021. Subject to review and change

# WAIHI NORTH PROJECT OVERVIEW

## Highly prospective deposit in multi-million-ounce district<sup>1,2</sup>

- Indicated Resource of 660koz Au ounces at 12.3g/t<sup>3</sup>
- Inferred Resource of 640koz Au ounces at 7.8g/t<sup>3</sup>
- 7,700 metres of drilling planned in 2023
- Consent applications lodged
- Progress of drilling and other consenting requirements will determine timing of the technical report

1. Based on historical production as described in the NI 43-101 Technical Report, Waihi District – Martha Underground Feasibility Study dated March 31, 2021

2. See News Release dated December 13, 2022 for more details

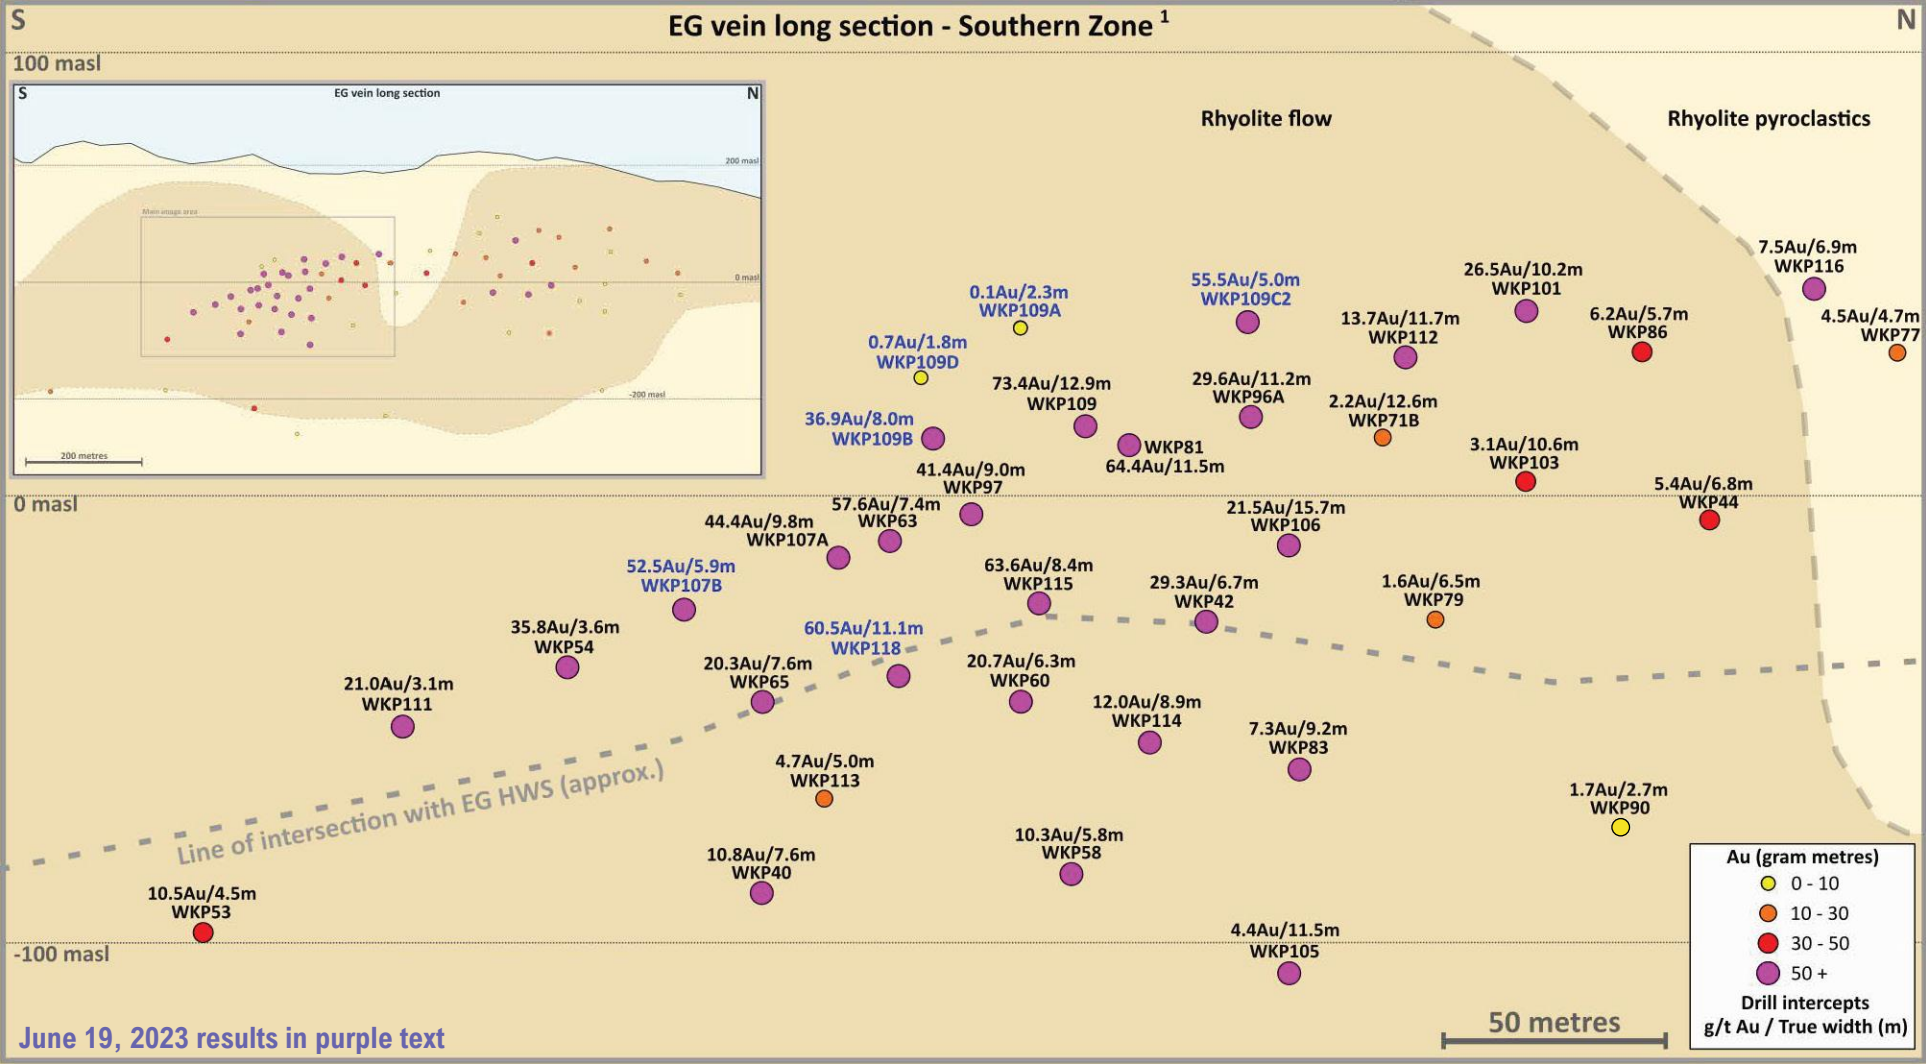

3. Based on reported Resources and Reserves for the year ended 2022, see March 31, 2023 news release for more details. Subject to review and change

# WHAREKIRAUPONGA EXPLORATION UPDATE

## Results to date from the 2023 Resource conversion program

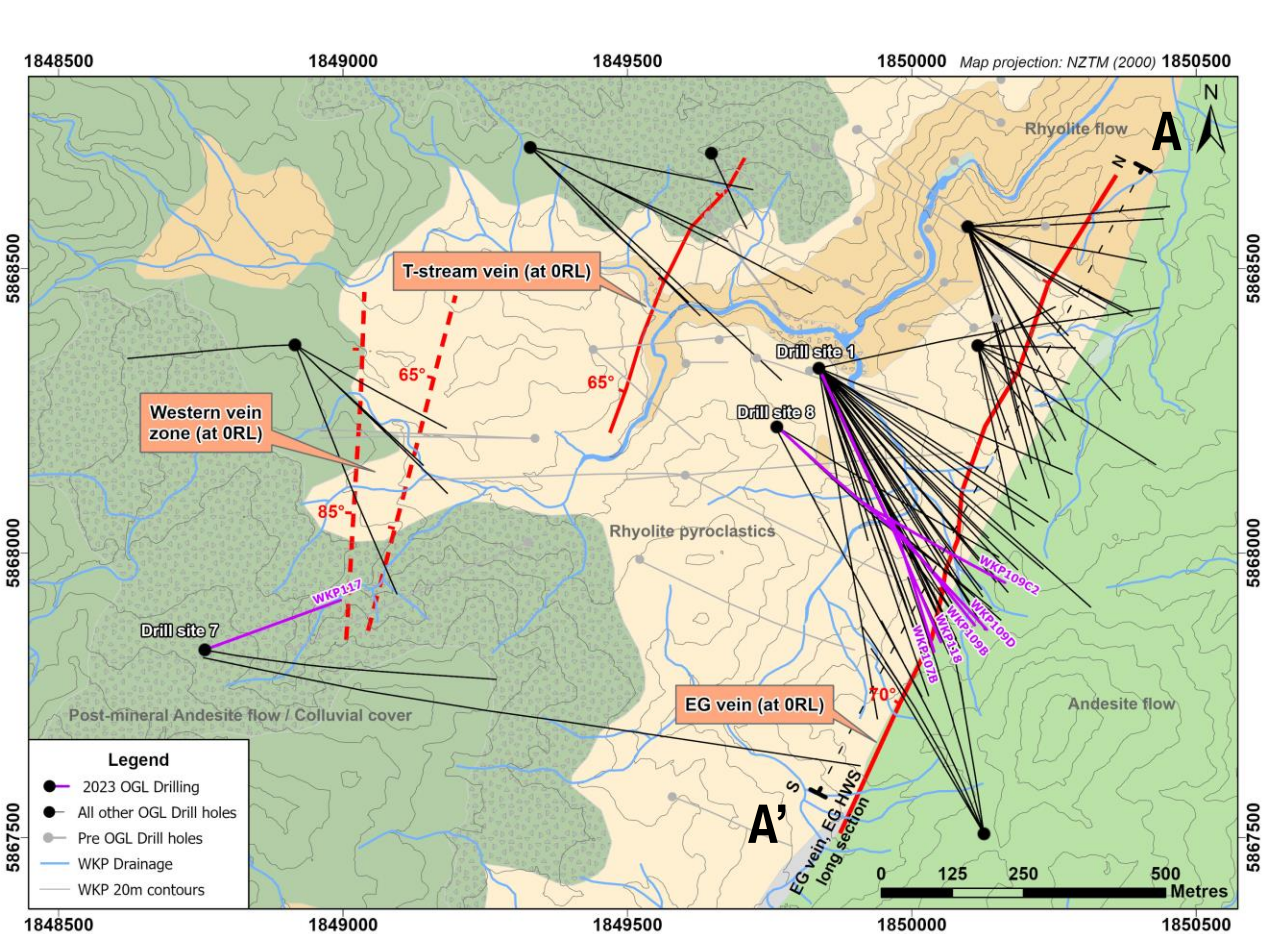

1. See news release "OceanaGold Provides Exploration Update for Wharekairauponga" dated June 19, 2023

# WHAREKIRAUPONGA A HIGH-GRADE GOLD DEPOSIT

Highly prospective deposit in multi-million-ounce district<sup>1,2</sup>

1. Based on historical production as described in the NI 43-101 Technical Report, Waihi District - Martha Underground Feasibility Study dated March 31, 2021  
2. See news release dated December 13, 2022 for more details

# A FOCUS ON DELIVERING SHAREHOLDER VALUE

Continuing to focus on our goals in 2023

Operate safely and responsibly

Deliver on guidance

Optimize production and reduce costs to maximize FCF generation

Investing in high-value growth and exploration capability to deliver attractive returns

Increase returns to shareholders

# 2023 GUIDANCE<sup>3</sup>

## 2023 PRODUCTION & COST GUIDANCE<sup>3</sup>

		HAILE	DIDIPIO	WAIHI	MACRAES	CONSOLIDATED
<b>GOLD PRODUCTION</b>	koz	140 – 150	125 – 135	50 - 60	130 – 140	460 – 480
<b>COPPER PRODUCTION</b>	kt	–	12 – 14	–	–	12 – 14
<b>ALL IN-SUSTAINING COSTS<sup>1</sup></b>	\$/oz	1,950 – 2,050	650 – 750	1,800 – 1,900	1,575 – 1,675	1,550 – 1,650 <sup>1</sup>

## 2023 CAPITAL INVESTMENTS & EXPLORATION<sup>3</sup>

		HAILE	DIDIPIO	WAIHI	MACRAES	CONSOLIDATED <sup>2</sup>	INCLUDED IN AISC
<b>CAPITALIZED MINING</b>	US\$M	85 – 95	4 – 6	20 – 25	45 – 50	155 – 170	155 – 170
<b>GENERAL OPERATIONS</b>	US\$M	45 – 50	10 – 15	3 – 5	30 – 35	85 - 100	85 - 100
<b>GROWTH</b>	US\$M	40 – 45	5 – 10	10 – 15	1 – 3	60 - 70	-
<b>EXPLORATION</b>	US\$M	6 – 8	3 – 5	13 – 18	2 – 4	25 – 35	7 – 9
<b>TOTAL INVESTMENTS</b>	US\$M	180 – 200	25 – 35	45 – 55	80 – 90	330 – 385	245 – 285

1. Consolidated AISC includes corporate costs, AISC guidance is based on a copper price of US\$3.75/lb.

2. Excludes Reefton Rehabilitation costs and non-sustaining equipment leases.

3. For details see our October 25, 2023 news release and MD&A. Subject to annual review and change.

124	1.30			5.20	7.4	0.15

- Mineral Reserves constrained to mine designs based upon US\$1,500/oz gold, US\$3.00/lb copper and US\$17/oz silver. New Zealand reserves use 0.70 NZD/USD exchange rate.
- Reported estimates of contained metal are not depleted for processing losses. For underground reserves, cut-offs applied to diluted grades.
- For Haile Open Pit, the primary cut-off grade is 0.5 g/t Au whilst oxide material is assigned a 0.6 g/t Au cut-off grade
- For Haile Underground, the cut-off is 1.72 g/t Au, with adjacent lower grade stopes included in the reserves based on an incremental stop cut-off grade of 1.56 g/t Au.
- For Didipio, gold equivalence is based upon the presented gold and copper prices as well as processing recoveries.  $AuEq = Au\ g/t + 1.37 \times Cu\%$ .
- For Didipio the 20.8 Mt open pit stockpile inventory includes 5.3 Mt of low grade stocks mined at an approximate 0.27 g/t AuEq cut-off.
- For Didipio Underground, incremental stopes proximal to development already planned to access main stoping areas are reported to a lower cut-off of 0.76 g/t AuEq.
- For Macraes Underground, Frasers Underground cut-off is 1.31 g/t Au whilst Golden Point Underground cut-off is 1.47 g/t Au.
- For Waihi Underground, the cut-off for previously unmined stoping areas is 2.6 g/t Au, increasing to 3.1 g/t Au for stoping areas in close proximity to remnant workings.

# MEASURED & INDICATED RESOURCE STATEMENT

## As at December 31, 2022

PROJECT		MEASURED			
AREA	Cut-Off	Mt	Au g/t	Ag g/t	Cu %

186	1.44			8.59	13	0.17

- Mineral Resources include Mineral Reserves. There is no certainty that Mineral Resources, not included as Mineral Reserves, will convert to Mineral Reserves. All resources based upon US\$1,700/oz gold, US\$3.50/lb copper and US\$20/oz silver and a 0.70 NZD/USD exchange rate for New Zealand resources.
- Open pit resources constrained to shells based upon economic assumptions above. Waihi Open Pit resources reported within a pit design limited by infrastructural considerations. Underground resources for Didipio, Horseshoe at Haile, and Frasers and Golden Point at Macraes, are reported within volumes guided by optimized stope designs. Underground resources for Palomino at Haile and Martha and WKP at Waihi are reported within optimized stope designs based upon economic assumptions above.
- Haile Open Pit primary cut-off 0.45 g/t Au, oxide cut-off 0.55 g/t Au. Palomino Resources at a 1.49 g/t Au cut-off and Horseshoe Resources at a 1.37 g/t Au cut-off, the difference due to slightly lower metallurgical recovery at Palomino.
- For Didipio Open Pit, only stockpiles remain. These include 5.3 Mt of low grade at a 0.27 g/t AuEq. Underground resources reported at a 0.67 g/t AuEq cut-off between the 2,460mRL and 1,980mRL with gold equivalence (AuEq) cut-off based on presented gold and copper prices. AuEq = Au g/t + 1.39 Cu %.
- Macraes: Frasers Underground at a 1.28 g/t Au cut-off and Golden Point Underground at a 1.15 g/t Au cut-off.
- Waihi: Martha Underground M&I Resources 5.7 Mt @ 5.35 g/t Au for 0.97 Moz WKP M&I resources 1.7 Mt @ 12.3 g/t Au for 0.66 Moz.
- Waihi: Martha Underground at a 2.15 g/t Au cut-off, WKP at a 2.5 g/t Au cut-off, Martha Open Pit at a 0.5 g/t Au cut-off and Gladstone Open Pit at a 0.56 g/t Au cut-off.

# TECHNICAL DISCLOSURE

## General

All Mineral Reserves and Mineral Resources were calculated as of 31 December 2022 and have been calculated and prepared in accordance with the standards set out in accordance with National Instrument 43-101 of the Canadian Securities Administrators ("NI 43-101").

## Competent / Qualified Persons

**Haile:** The updates of Mineral Resources for Haile open pit and underground have been verified and approved by, or are based on information prepared by, or under the supervision of, J. Moore. The updates of Mineral Reserves for Haile open pits have been verified and approved by, or are based on information prepared by, or under the supervision of, G. Hollett and the Mineral Reserves for Haile underground have been verified and approved by or are based upon information prepared by, or under the supervision of B. Drury.

**Macraes:** Any updates of Mineral Resources for Macraes open pits have been verified and approved by J. Moore while the updates of Mineral Resources for Macraes underground operations have been verified and approved by M. Grant. Mineral Reserves for Macraes open pits have been verified and approved by, or are based on information prepared by, or under the supervision of, P Doelman. The Mineral Reserves for Macraes underground have been verified and approved by or are based upon information prepared by, or under the supervision of, S. Mazza.

**Blackwater:** Any updates of Mineral Resources for Blackwater have been verified and approved by J. Moore.

**Waihi:** Any updates of Mineral Resources for Waihi's Martha open pit have been verified and approved by, or are based on information prepared by, or under the supervision of, J. Moore. Any updates of Mineral Resources for Waihi's Wharekirauponga Underground have been verified and approved by, or are based on information prepared by, or under the supervision of, D. Corley. Any updates of Mineral Resources for Waihi's Gladstone open pit and Martha Underground have been verified and approved by, or are based on information prepared by, or under the supervision of, L. Crawford-Flett. The Mineral Reserves for Waihi have been verified and approved by, or are based on information prepared by, or under the supervision of D. Townsend for underground.

**Didipio:** The Mineral Resources for Didipio have been verified and approved by, or are based on information prepared by, or under the supervision of, J. Moore while the Mineral Reserves for Didipio underground have been verified and approved by or are based upon information prepared by, or under the supervision P. Jones.

Messrs, Corley, Crawford-Flett, Doelman, Grant and Townsend are full-time employees of the Company's subsidiary, Oceana Gold (New Zealand) Limited. Messrs Corley, Hollett, Jones, Mazza and Moore are full-time employees of the Company's subsidiary, OceanaGold Management Pty Limited. Ms Drury is a full-time employee of the Company's subsidiary, Haile Gold Mine. Both OceanaGold (Philippines) Inc. and Haile Gold Mine Inc. are subsidiaries of the Company.

D. Corley is a member and Registered Professional Geologist of the Australian Institute of Geoscientists. G. Hollett is a Professional Engineer (P.Eng) registered with Engineers and Geoscientists of British Columbia (EGBC). Messrs Crawford-Flett, Doelman, Jones, Mazza, Moore and Townsend are Members and Chartered Professionals with the Australasian Institute of Mining and Metallurgy. M Grant is a member of the Australian Institute of Geoscientists. B. Drury is a Registered Member with the Society of Mining, Metallurgy & Exploration.

All such persons are "qualified persons" for the purposes of NI 43-101 and have sufficient experience relevant to the style of mineralisation and type of deposit under consideration and to the activity which they are undertaking.

B. Drury and Messrs Corley, Crawford-Flett, Doelman, Grant, Hollett, Jones, Mazza, Moore, and Townsend consent to inclusion in this public release of the matters based on their information in the form and context in which it appears. The estimates of Mineral Resources and Mineral Reserves contained in this public release are based on, and fairly represent, information and supporting documentation prepared by the named qualified and competent persons in the form and context in which it appears.

## Technical Reports

For further scientific and technical information supporting the disclosure in this media release (including disclosure regarding Mineral Resources and Mineral Reserves, data verification, key assumptions, parameters, and methods used to estimate the Mineral Resources and Mineral Reserves, and risk and other factors) relating to the Didipio Gold-Copper Mine, the Macraes Mine, the Haile Gold Mine the Waihi Gold Mine and the Blackwater project, please refer to the following NI 43-101 compliant technical reports and the Blackwater Preliminary Economic Assessment released on 21 October 2014 available at [www.sedar.com](http://www.sedar.com) under the Company's name:

- a) "NI 43-101 Technical Report, Macraes Gold Mine, Otago, New Zealand" dated October 14, 2020, prepared by D. Carr, Chief Metallurgist and T. Cooney, previously General Manager of Studies, both of OceanaGold Management Pty Limited and P. Doelman, Tech Services and Project Manager, S. Doyle, previously Principal Resource Geologist and P Edwards, Senior Project Geologist, each of OceanaGold (New Zealand) Limited;
- b) "Technical Report for the Didipio Gold / Copper Operation Luzon Island" dated March 31, 2022, prepared by D.Carr, Chief Metallurgist, P Jones, Group Engineer, and J. Moore, Chief Geologist, each of Oceana Gold Management Pty Limited;
- c) Waihi District Study - Martha Underground Feasibility Study NI 43-101 Technical Report" dated March 31, 2021, prepared by T. Maton, Study Manager and P. Church, previously Principal Resource Development Geologist, both of Oceana Gold (New Zealand) Limited, and D. Carr, Chief Metallurgist, of OceanaGold Management Pty Limited; and
- d) "NI 43-101 Technical Report Haile Gold Mine Lancaster County, South Carolina" dated March 30, 2022, prepared by D Carr, Chief Metallurgist, G Hollett, Group Mining Engineer, and J Moore, Chief Geologist, each of OceanaGold Management Pty Limited, B. Drury and D. Londono of Haile Gold Mine, Inc., M. Kirby previously of Haile Gold Mine, Inc., J. Poeck, M. Sullivan, D. Bird, B. S. Prosser and J Tinucci of SRK Consulting, J. Newton Janney-Moore and W. Lucas Kingston of Newfields and L. Standridge of Call and Nicholas.

## Exploration Results

The exploration results in this presentation were prepared in accordance with National Instrument 43-101 – Standards of Disclosure for Mineral Projects of the Canadian Securities Administrators ("NI 43-101"). Information relating to Waihi exploration results in this document has been verified by, is based on and fairly represents information compiled by or prepared under the supervision of Lorraine Torckler, a Fellow of the Australasian Institute of Mining and Metallurgy and an employee of OceanaGold. Information relating to the Didipio and Haile exploration results in this document have been verified, and are based on and fairly represent information compiled by or prepared under the supervision of Craig Feebrey, a Member of the Australasian Institute of Mining and Metallurgy and an employee of OceanaGold. Both Messrs Torckler and Feebrey have sufficient experience that is relevant to the style of mineralisation and type of deposit under consideration and to the activity being undertaken to qualify as Qualified Persons for the purposes of the NI 43-101. Messrs, Torckler and Feebrey consent to the inclusion in this public report of the matters based on their information in the form and context in which it appears.
