

Cautionary Note Regarding

Forward-Looking Statements

This presentation includes certain "forward-looking information" and "forward-looking statements" (collectively "forward-looking statements") within the meaning of applicable Canadian and United States securities legislation including the United States Private Securities Litigation Reform Act of 1995. These forward-looking statements are made as of the date of this presentation. Forward-looking statements are frequently, but not always, identified by words such as "expects", "anticipates", "believes", "plans", "projects", "intends", "estimates", "envisages", "potential", "possible", "strategy", "goals", "objectives", or variations thereof or stating that certain actions, events or results "may", "could", "would", "might" or "will" be taken, occur or be achieved, or the negative of any of these terms and similar expressions.

Forward-looking statements in this presentation relate to future events or future performance and reflect current estimates, predictions, expectations or beliefs regarding future events and include, but are not limited to, statements with respect to: (i) the Company's focus on advancing its assets towards production; (ii) realizing the value of the Company's projects for the Company's shareholders; (iii) future prices of gold, silver, base metals and certain other commodities; and (iv) the timing and amount of estimated future production. All forward-looking statements are based on the Company's or its consultants' current beliefs as well as various assumptions made by them and information currently available to them. There can be no assurance that such statements will prove to be accurate, and actual results and future events could differ materially from those anticipated in such statements. Forward-looking statements reflect the beliefs, opinions and projections on the date the statements are made and are based upon a number of assumptions and estimates that, while considered reasonable by the respective parties, are inherently subject to significant business, economic, competitive, political and social uncertainties and contingencies. Many factors, both known and unknown, could cause actual results, performance or achievements to be materially different from the results, performance or achievements that are or may be expressed or implied by such forward-looking statements and the parties have made assumptions and estimates based on or related to many of these factors. Such factors include, without limitation: reliability of historical data; fluctuations in the spot and forward price of gold, silver, base metals or certain other commodities; fluctuations in the currency markets (such as the Canadian dollar versus the U.S. dollar); changes in national and local government, legislation, taxation, controls, regulations and political or economic developments; risks and hazards associated with the business of mineral exploration, development and mining (including environmental hazards, industrial accidents, unusual or unexpected formations, pressures, cave-ins and flooding); the presence of laws and regulations that may impose restrictions on mining; employee relations; relationships with and claims by local communities, indigenous populations and other stakeholders; availability and increasing costs associated with mining inputs and labour; the speculative nature of mineral exploration and development; title to properties; and the additional risks described in the Company's disclosure documents filed with the Canadian securities regulatory authorities under the Company's SEDAR profile at www.sedar.com.

Summa Silver cautions that the foregoing list of factors that may affect future results is not exhaustive. When relying on our forward-looking statements to make decisions with respect to Summa Silver, investors and others should carefully consider the foregoing factors and other uncertainties and potential events. Summa Silver does not undertake to update any forward-looking statement, whether written or oral, that may be made from time to time by the Company or on our behalf, except as required by law.

The potential quantity and grade of any exploration target in this presentation is conceptual in nature, there has been insufficient exploration to define a mineral resource and it is uncertain if further exploration will result in the exploration target being delineated as a mineral resource. Mineralization hosted on adjacent and/or nearby and/or geologically similar properties is not necessarily indicative of mineralization hosted on the Company's property. Galen McNamara, P.Geo., the Chief Executive Officer of the Company, and a qualified person pursuant to NI 43-101, has reviewed and approved the scientific and technical information contained in this presentation. Mr. McNamara has verified the data disclosed herein, including sampling and drilling data underlying the technical information contained herein, by reviewing blanks, duplicates and certified reference material that the Company inserted into the sample stream and confirming that they fall within limits as determined by acceptable industry practice.

Summa Silver Overview

Advancing the Hughes Property in Nevada & Mogollon Property in New Mexico

Prolific high-grade past producing silver-gold districts with large-scale ounce potential

High-grade results in drilling with multiple zones over 2,000 g/t Ag equivalent

Substantial drilling planned at spacing required for first resource estimates

United States focused silver and gold development company

Targeting 43-101 resource on two high-grade silver projects

Summa Silver Team

Galen McNamara

CEO & DIRECTOR

Co-founder and geologist with over 15 years of discovery and capital markets experience, former Senior Project Manager at NexGen Energy, Co-founder and Chairman of Goldshore Resources and Angold Resources

Martin Bajic CFO & DIRECTOR

Chartered Professional Accountant with extensive CFO experience at multiple Canadian listed companies

Michael Konnert

DIRECTOR

Founder, CEO and Director of Vizsla Silver Corp, Co-founder and managing partner of Inventa Capital, 10+ years experience in mining and capital markets

Brian Goss DIRECTOR

15+ years of extensive mineral exploration and project management experience in the, founder of Rangefront Geological, a leading geological consulting company project generator in the western United States

Chris York

VICE PRESIDENT, EXPLORATION

Economic geologist with over 12 years experience focused on sediment hosted and epithermal narrow vein deposits, former Exploration Manager for Klondex Gold and Silver running all field activities

Christopher Leslie

SENIOR GEOLOGIST

Economic geologist with over 15 years of experience in mineral exploration focused on the discovery and advancement of gold and silver deposits, co-discoverer of the 8.2 million ounce Blackwater Gold Deposit

Thomas O'Neill DIRECTOR

President of Thomas O'Neill and Associates Inc, a national leader in insurance planning, group employee benefits and retirement planning, widely recognized expert in the life insurance and financial planning industry

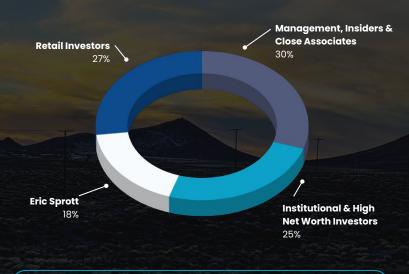

Garrett Ainsworth

TECHNICAL ADVISOR

Highly accomplished geologist and mining executive, key role in two world-class uranium discoveries, President, CEO and Director of District Metals Corp

Capital Structure

Recent Share Price* \$0.85 **Common Shares Issued** 76,832,376 **Incentive Stock Options** 6,307,500 (\$0.25 - \$1.41)**Warrants** 17,230,715 (\$0.90-\$1.75) **Working Capital** \$10M Nil Debt **Total Fully Diluted** 100,370,591

* As of May 10, 2022

The Mogollon Property Highlights

- **Under the radar** opportunity with potential to be one of the last great vein fields in the US
- **Unfinished business** with an up to 25,000 m drill program required to test extensions of a prematurely shuttered mine
- Multiple Targets emerging from detailed ground work and historic data compilation with extensive undrilled high-grade mineralization at surface

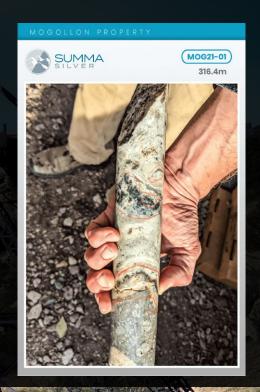

- Largest historic silver producer in New Mexico with at least 16.4 Moz Ag and 339 koz Au of production at grades of 298 g/t Ag and 6.16 g/t Au or 795 g/t AgEq* between the 1880's and 1942
- First program will only test 1.5% of the prospective strike length of veins on the property

*AgEq is calculated using US\$20/oz Ag, US\$1,800/oz Au, with metallurgical recoveries of Ag - 90% and Au - 95%. AgEq = (Ag grade x Ag recovery)+((Au grade x Au recovery) x (Au

Sources: USGS 1927, Blackhawk Mines corporate production records 1942

Consolidated Extension Drilling

- High-grade silver and gold intercepted in all six holes drilled to date
- First target area and only represents 1.5% of total **strike length of veins** on the property
- 34 km of mostly unexplored vein and structure present on the project
- Vein intersection core photos can be viewed here
- **Drilling is in progress** and the Company anticipates a minimum of 25,000 m of drilling is necessary
- Up to **50 holes** required for maiden resource

Mogollon Property Work Program

- Continue drill program at Mogollon targeting high-grade mineralization around the historic Consolidated Mine
- Regular news flow communicating drill hole results
- Finalize additional drill targets for 2023 and beyond
- Initiate permits with state and federal regulators for subsequent target areas

Q3-Q4 2022

- Ongoing drilling around the historic Consolidated Mine with regular newsflow
- 50+ holes required to cover mineralized footprint within first target at anticipated "inferred" spacing
- Initiate resource-stage metallurgical work
- Assess potential for 43-101 compliant resource in 2023

The Hughes Property Highlights

- The prospective eastern side of the Tonopah district, second largest historic silver producer in Nevada
- Total production of 175 Moz of Ag and 1.86 Moz of Au at grades of 679 g/t Ag and 7.3 g/t Au or 1,235 g/t AgEq* from the district
- >> 5,504 acres 5.5 km strike length
- > Formerly owned by Howard Hughes
- High-grade Ag-Au in recent drilling

> 2020 & 2021 Highlights include:

SUM21-30

3,971 g/t AgEq over 2.8 m

SUM20-06

536 g/t AgEq over 18.1 m

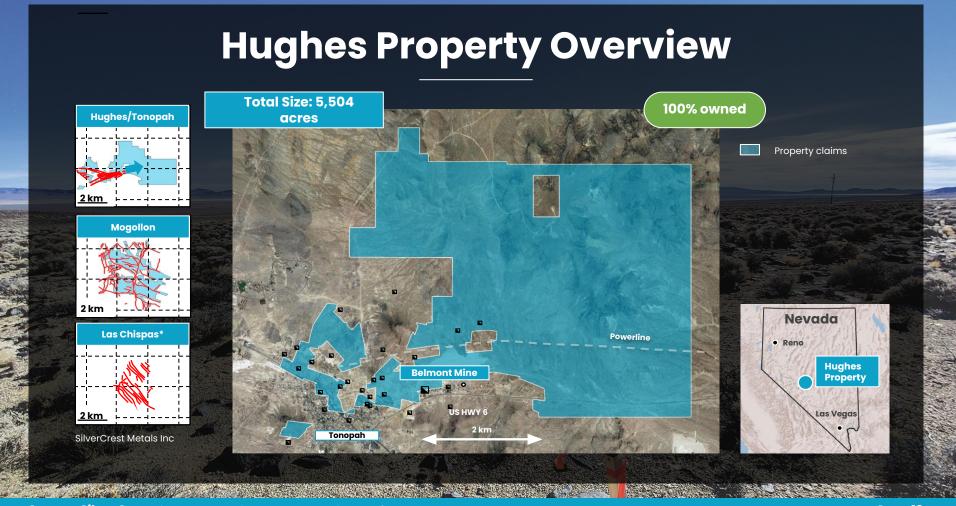

SUM21-31

1,529 g/t AgEq over 4.3 m

Multiple zones of >1,000 g/t Ag equivalent intersected over a
 3.5 km trend, mineralized zones largely open, un-tested drill targets common

*AgEq is calculated using US\$20/oz Ag, US\$1,800/oz Au, with metallurgical recoveries of Ag - 90% and Au - 95%. AgEq = (Ag grade x Ag recovery)+((Au grade x Au recovery) x (Au price / Ag price)). Silver and gold grades comprising AgEq are listed on page titled "Hughes Property Drilling" in this presentation

Hughes Property Work Program

- Q2 2022
 - Plan and permit significant 2022 drill program
 - Initiate drill program to focus on stepping out from areas on known high-grade mineralization and test undrilled high-priority exploration targets
 - Initiate resource-stage metallurgical work
 - Continued property expansion
 - Q3-Q4 2022
 - Ongoing drilling around testing multiple target areas
 - 25+ holes required to cover mineralized footprints within high-grade zones anticipated "inferred" spacing
 - Assess potential for 43-101 compliant resource in 2023

The Opportunity

Two famous high-grade past producers currently being drilled with excellent results to date

Proven management team with track record of multiple discoveries, creating shareholder value

Large scale ounce potential with significant leverage to silver and gold prices, substantial drilling planned and upcoming resources

Excellent access and infrastructure in stable and established mining jurisdictions
