- We are proud to have had no whistleblowing incidents.

HEALTH & SAFETY

- We aim for a **zero-harm work environment** with a LTIFR of zero
- We set-up the Nyanzvi training initiative to improve safety at Blanket
- Have taken active measures in response to COVID-19 to minimise infection rise and safeguard continuity of operations

OUR PEOPLE

- 99% of our employees are Zimbabwean, and our Blanket employees have a 10% interest in the mine
- Our hiring practises include consideration of diversity across a number of areas including gender, and we are pleased to maintain a low employee turnover throughout the business – turnover at the Blanket Mine in 2020 was 0.42%
- Appointed an NED to sit on Caledonia Board with a specific focus on ESG & CSR

COMMUNITY RELATIONS

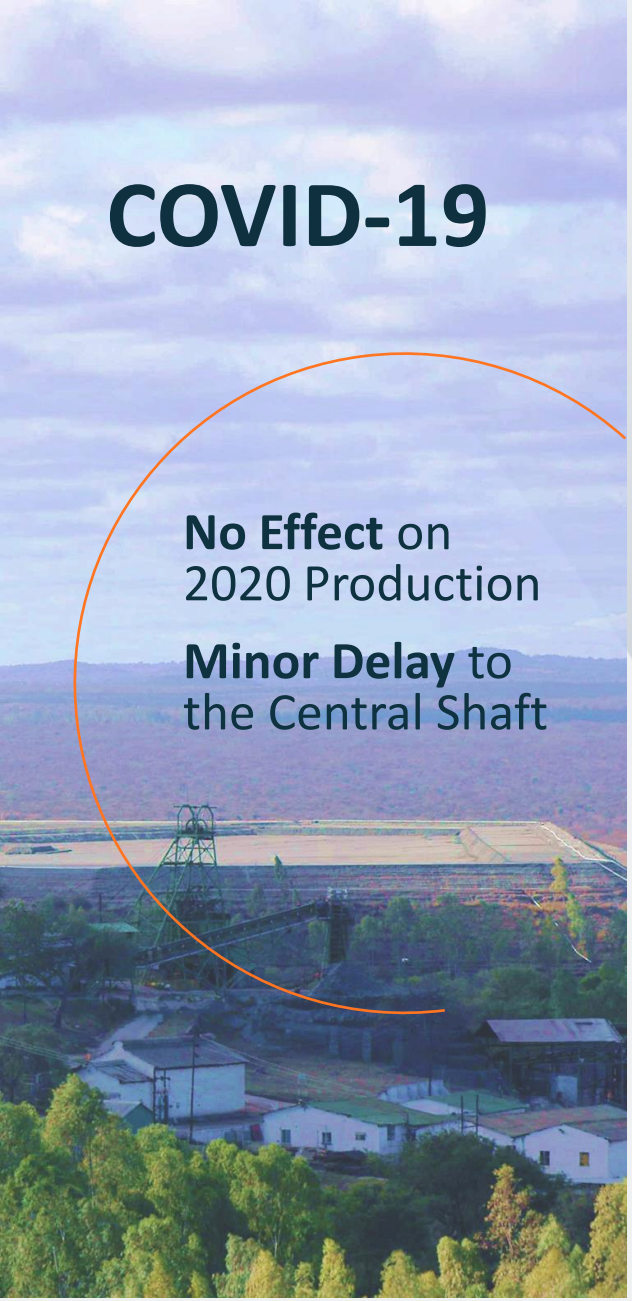
- Involvement of the local community is central to our vision of building a socially responsible business
- The local community holds a 10% interest in the Blanket Mine
- Our CSR Strategy is defined under the following six pillars: **Education, Health, Women & Youth Empowerment, Agriculture, Environment & Charity**

ENVIRONMENT

- Blanket operates an **Environmental Management Plan** to ensure the application of the best management practices to protect the environment, and we have entered into a contract to construct a 12MW solar plant at the mine
- Water is recycled from the lower levels of unused workings, and we plan to construct a storage pond from water pumped from current workings
- We are proud to have had zero reported environmental incidents in 2020
- Information on website regarding tailings management in response to requests from the Church of England Pensions Board and Council on Ethics and the Swedish National Pension Funds

Sustainability is key to our business model, and we aim to deliver a strategic, environmentally sound response to some community needs under the following five sustainability pillars

COVID-19



No Effect on 2020 Production

Minor Delay to the Central Shaft

Donations to the Chamber of Mines and communities in 2020 to assist with the Covid-19 pandemic

Operations during the 3-week lockdown (in early April) ran at **93%** of planned production and production in the whole of Q2 was only **1.2%** below plan

COVID-19 restrictions had an adverse effect on capital projects:
Slower progress on equipping the Central Shaft and restrictions on the cross-border movement of specialised personnel and equipment

Zimbabwe has recently come out of second **national lockdown**

Caledonia has procured **vaccines** for its employees and their families

Case Study

Phakama Clinic

The outbreak of COVID-19 precipitated the need for increased support to the community. We have responded with significant investment in healthcare facilities throughout 2020

For the Gwanda Community, Blanket built and equipped two isolation wards, ablution facilities and a kitchen at Phakama Clinic in anticipation of an increased number of Covid-19 patients during the pandemic at a cost of $462,000 .

Solar PV Project

OUR DRIVE TOWARDS A MORE SUSTAINABLE FUTURE

APPROVED THE CONSTRUCTION OF A 12MW SOLAR PLANT AT A COST OF APPROXIMATELY $12 MILLION

- Expected to reduce Blanket's dependence on grid power and improve the quality and security of Blanket's electricity supply
- Funding has been secured through the issue of equity via an ATM fundraise on the NYSE American
- Voltalia, a major player in the renewables energy sector, has been appointed
- Plant will take approximately 12 months to construct
- Blanket's tropical location and altitude are favourable for Solar PV
- Expected to provide approximately 27% of Blanket's total daily electricity demand

Caledonia Mining Corporation Plc

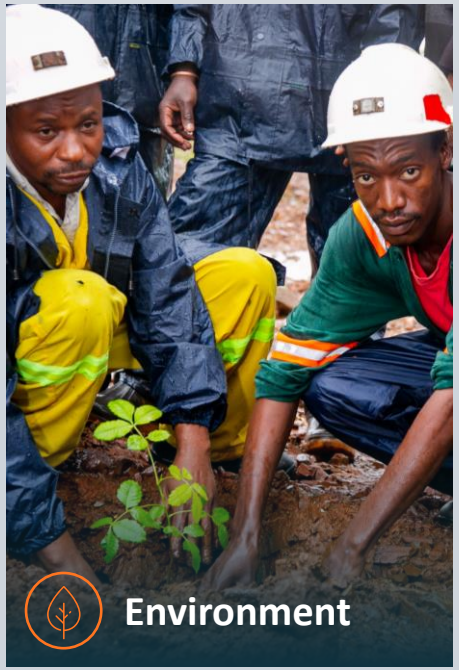
CSR

A RESPONSIBLE MINER

Corporate Social Responsibility

CALEDONIA IS A SOCIALLY CONSCIOUS RESPONSIBLE BUSINESS

OUR CSR STRATEGY IS DESIGNED TO DELIVER A STRATEGIC, SUSTAINABLE RESPONSE TO SOME COMMUNITY NEEDS.
OUR FOCUS AREAS ARE DEFINED UNDER THE FOLLOWING FIVE SUSTAINABILITY PILLARS:



Outlook

A COMPANY IN THE ASCENDANCE

Strategy & Outlook

INCREASED FREE CASH FLOW TO GROW DIVIDENDS AND INVEST FOR FURTHER PRODUCTION

Significant increase in production from 2022

Increased cash flows due to higher production, lower unit costs and reduced capex from 2022

Continued **deep level exploration** to extend the life of mine beyond 2034

Review dividend to deliver **sustainable dividend growth** consistent with increasing free cash flow:

9% dividend increase in April 2021 to 12 cents per share; 75% cumulative increase since October 2019

Start to explore **Glen Hume** and **Connemara North,** with the right to acquire the mining claims over the area

Continue to **evaluate investment opportunities** where “surplus” free cash can be deployed
